vast memory, storage, and up to WiFi 7.

Workspace Efficiency Redefined

Connect to multiple peripherals via a hub of ports, and enable customization with optional expansion slots such as VGA / DisplayPort / HDMI® / Ethernet (RJ45) / USB-C®, etc. Charge your smartphone readily using the PowerShare USB, even with the PC powered off. Plus, multitask easily with support for up to four independent displays — the sky’s the limit.

Device Convenience Reimagined

With a keyboard shortcut to turn on the desktop, and a quick boot-up process via the Thunder Boot feature, this ThinkCentre PC reflects ease of convenience, making it the perfect choice for modern workspaces. Plus, with Modern Standby, your system remains up-to-date even during sleep mode, and it wakes and connects instantly.

Ultimate PC Security Enabled

Our ThinkShield security encrypts data via the discrete Trusted Platform Module (dTPM), while the self-healing BIOS restores earlier system settings. Secure your PC physically with the Kensington Security Slot™, and choose the Intel vPro® Enterprise platform for multilayer security like Intel® Hardware Shield to block cyberattacks and ransomware.

Effortless Upgrades, Easy Maintenance

Along with a sleek design, the ThinkCentre M90q Gen 5 Tiny desktop is also ready for toolless upgrades, saving IT valuable time. The removable easy-to-clean dust shield assists with upkeep to extend the lifecycle. Plus, an AI-driven fan prevents overheating issues — keeping the system cool and efficient for all-day-long operations.

Future Forward, Future Ready

The M90q Gen 5 uses 85% recycled post-consumer content acrylonitrile butadiene styrene plastics in the chassis. The packaging has 60% post-industry content (PIC), 30% ocean-bound plastic in the thermal shell and bag, and is certified by Forest Stewardship Council® (FSC). Plus, ENERGY STAR®
