APC WITPC3YR10 warranty/support extension 3 year(s)

Model: WITPC3YR10

Manufacturer: APC

Product Code: 290259

R13,757

7x24 telephone technical support

Our experienced technical support engineers are available to answer your questions, giving you peace of mind knowing the help you require is available at any given time.

Software upgrades

Software support contracts entitle customers to all software upgrades and updates, ensuring access to new features and product enhancements.

Protection

User roles

Enable location and feature-based access through multi-user login and individual levels of user roles.

Multi-user access

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Enables several users to carry out work on the application simultaneously and merging changes from different users seamlessly.

Password Security

User-selectable password with strong password rules and reset password mechanism.

Read-only Access

Share access without risking unauthorized configuration changes.

Manageability

Underutilized servers

Provides a customizable list of underutilized servers, for identifying non-utilized and underutilized servers within the data center.

Top power consumers

Identifies servers with the highest average power usage, providing data center operators with a list of likely candidates for upgrades, load sharing or retirement.

KPI data

Key performance indicators on power cost, server utilization and retirement candidates, available in report and dashboard format.

Agility

Track underutilized servers

Reduce costs by eliminating unnecessary servers and maximize efficiency and rack capacity.

Maximize rack utilization

Gain visibility into rack utilization for optimizing power, cooling and space at the rack level.

IT power and server utilization monitoring

Determine the business usefulness for all IT assets helps eliminate underutilized servers and maximize IT capacity at the rack, row and room level.

Server efficiency categorization

Provides the ability to categorize servers into non-utilized, underutilized and utilized for analyzing IT efficiency, remove non-utilized servers to recapture available capacity and virtualize underutilized servers to consolidate resources.

Server usage chargeback

Enables businesses to capture and assign IT costs to individual departments for accurate billing support down to the physical or virtual server level.

Prevent physical server sprawl

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
shop.cssi.co.za | sales@cssi.co.za | +27 (11)541-9950

Identify and remove non-utlized servers for optimal use of rack capacity.

Availability

Auto-association

Increases accuracy and saves time by auto-associating discovered IT devices with the inventory, based on properties such as make, model and IP address.

Live dashboard

Gain transparency to data center key performance indicators through easily configured web dashboards, displaying customizable management-level information.

IT asset monitoring

Continual discovery and monitoring of IT components through standard protocols for accurate and current inventory management.

IT asset auto-discovery

Saves time and increases accuracy of your managed asset inventory.

Global asset search

Quickly locate assets through free text search, and export equipment data to excel format.

GenomeTM library

The continuously growing asset library enables the software to determine power consumption without the aid of hardware sensors.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
