Amplify your ThinkPad experience with the ThinkPad Compact Bluetooth Keyboard with TrackPoint. This award winning keyboard incorporates the classic TrackPoint design of ThinkPad notebooks for easy navigation without the need for a mouse. The scissor-lift key mechanism ensures better ergonomics and comfort. The key size and the space between are optimized for precise and responsive all-day typing. The Bluetooth connection provides wireless simplicity without the need of a dongle. And worry not about changing the batteries, the integrated battery lasts up to one month battery life and you can recharge with the included micro USB cable.
