

Techly ICTB9801TB keyboard Universal RF Wireless + Bluetooth QWERTY US English Black

Model: 365375

Manufacturer: TECHLY

EAN: 8059018365375

Product Code: 325744

R1,677

Practical and compact Bluetooth and Wi-Fi 2.4 GHz dual mode keyboard, ideal for controlling a PC connected to a smart TV without the hassle of cables and the mess of multiple connected devices
Thanks to the seven-color backlighting and the three-level intensity adjustment, it is convenient to use even in the absence of light
The integrated precision touchpad, to control the cursor, and the d-pad, to navigate the grid layout of the most common smart TVs, offer a very comfortable and intuitive navigation
Its compact size makes ICTB9801TB also suitable for use on the sofa, sitting comfortably in front of the smart TV
