AMD EPYC™ CPUs for 24x7 Business Growth and Manageability

AMD EPYC™ 4004 Series Processors were a welcome addition to the 4th Gen AMD EPYC™ processor family, and now the 4005 Series comes out of a new processor family with “Zen 5” core architecture - lowering the threshold for businesses and hosting services that have been wanting to move to a platform with a server OS and other enterprise features, yet at an optimal price point in GIGABYTE solutions. SMB and hosting services rely on server-grade reliability so they can continue running 24x7. At the same time, they need to have a higher degree of manageability than what is found at the consumer level. On top of validating, GIGABYTE provides GIGABYTE Management Console (GMC) for system management and GIGABYTE Server Management (GSM) software for monitoring multiple
