Intel® Xeon® E-2400 Processors

Designed for small businesses and cloud services, the new Intel Xeon 6300-Series/E-2400 Processors offers options with 4, 6, or 8 cores. These processors support both DDR5 ECC UDIMMs and a maximum of 16 lanes PCIe 5.0 and 24 lanes PCIe 4.0 with the new Intel C260 Series Chipsets. On specific processors, the single core frequency can boost up to an astonishing 5.6 GHz with Intel Turbo Boost Technology. Bringing a high performance, reliable, and cost effective option for entry-level services all under the TDP of 95W.
