Step up your selfies.

Take super-sharp, share-worthy selfies with the upgraded 10.5 MP front camera with auto-focus.

Get super close up from super far away.

Super Res Zoom gets you up close with 2x optical quality, and up to 8x without an extra telephoto lens.

The camera that makes you feel seen.

True-to-you skin tones.

Real Tone represents the nuances of skin tones beautifully, authentically and accurately in photos and video.

Selfies for everyone.

Guided Frame helps people with low vision take the best selfies. It uses audio and haptics to guide a face right into frame.
