Ergonomics

Ergonomic Stand with C-Clamp

Various Movement of Display

User Convenience

USB Type-C™

Easy Installation

More Screen and Less Space

DualUp monitor only occupied compact space for one monitor but this 16:18 aspect ratio monitor support, two 21.5-inch monitors (16:9 aspect ratio), at one screen. It enhances work efficiency and productivity at the same time.

Various Movement of Display

Ergonomic Movement within Eye Rotation Range

Enhanced flexibility of the Ergo stand* offers expanded ergonomic adjustment of extend, retract, swivel, pivot, height and tilt as well as providing perfect position of screen for more comfortable and sustainable user experience.

SDQHD Nano IPS Display

Stunning Image Quality, Apposite to Your Work

The 27.6-inch SDQHD (2560 x 2880, 16:18 aspect ratio) Nano IPS display supports a wide color spectrum, 98% of DCI-P3 color gamut, and offers vibrant color reproduction with the support of HDR10.

Live Color Low Blue Light

Increase Viewing Comfort while Maintaining Color Quality

LG's Live Color Low Blue Light with TÜV Rheinland Eyesafe® Display Certification helps to protect your eyes against blue light by combining RGB hardware and software adjustments while maintaining vivid color quality.

Ambient Light Sensor

Reducing Eye Strain with Auto Brightness Control

The sensor reacts to light, making the screen brighter in bright areas and darker in the dark. It provides a comfortable working environment.

Ideal Monitor for Creating, Developing, and Multitasking

LG DualUp Monitor, a new style display of 16:18 aspect ratio, helps to boost efficiency and productivity. You can check more information at a glance within the extended upper and lower space.

USB Type-C™

Easy Control and Connectivity

USB Type-C™ port allows from display and data transferring to connected device charging (up to 90W), enabling support for your laptop all at the same time over a single cable.

How to Utilize DualUp Monitor Set-up

PBP & Built-in KVM*

DualUp monitor allows you to control multiple contents from two computers with the picture-by-picture feature. Also, the built-in KVM feature helps to manage content with a single keyboard and mouse.

1 Source PBP**

By connecting two cables, out of HDMI, DisplayPort, and USB Type-C™, you can utilize a dual monitor setup with 28MQ780. It helps to control two-screen easily without using software or shortcut keys.

*KVM: Keyboard, Video Monitor, and Mouse.

**It can be connected via the USB Type-C™ cable, HDMI cable, and USB2.0 upstream cable included with the package.

**DisplayPort cable is NOT included with the package.

Space-saving and Flexible Workstation Setup

Easy Workstation Setup

Fully Use Your Desk

Basically, for the dual monitor set-up without DualUp monitor but conventional monitors, more than 2-times are required compared to the existing space. DualUp monitor helps users to set workspace comfortably in their current space. Also, C-Clamp & Grommet and One Click Mount make it to install easily without other equipment.
