Powered by the highest resolution FLIR® lepton available today, Blackview BV8900 features several exclusive enhancements with 4× space zoom by high thermal resolution to easily detect hot spots, identify potential hazards, and monitor temperatures.

Thermal Imaging for Home

Living Room: Find potential electrical failures to avoid electrical fires.

Bedroom: Pinpoint the ideal temperature for the comfort of your family.

Kitchen: Find plumbing issues, blocked pipes, and leaks to save maintenance costs.

Thermal Imaging for Professionals

Industrial and construction: Detect equipment failures.

Fire hazard emergency: Find fire escapes or locate trapped people in thick smoke.

Outdoor adventure: Detect wildlife, find hidden heat sources, and detect water sources.

Agriculture: Help monitor moisture levels in the soil for healthy plants.

16MP Front Camera

Say Cheese to the Perfect Selfie

Optimized for perfect selfies, the QuadBayer sensor maintains high sensitivity of light with high image quality. Whether you're taking a selfie on the go or making up the ideal shot, it will help you capture the stunning selfie with the allure of detailed textures.

64 MP Samsung ISOCELL GW3

From Ordinary to Extraordinary

Whether you are photographing vast landscapes while hiking or discovering hidden gems in

64 MP Samsung ISOCELL GW3

From Ordinary to Extraordinary

Whether you are photographing vast landscapes while hiking or discovering hidden gems in everyday life, the 64MP sensor works as the True-Chroma Photo Master to present the true color of any subject with every detail your eyes can see in extremely high-resolution images, capturing every moment in the glory.

Smart-ISO-For any lighting scenario

When the lighting is bright, it chooses a low ISO level for better clarity while avoiding oversaturation. When there is insufficient light, it switches to high ISO mode to brighten the image with more details.

ISOCELL Plus technology-Bring your images to life

It delivers brilliant images that are colorful and full of life by producing color with higher precision and reducing optical loss and light reflection between pixels with specially engineered materials.

Tetrapixel technology-No light, no issue

According to the quantity of light present, the sensor's pixels are automatically rearranged, allowing

you to enjoy the clarity of smaller pixels in bright conditions and catch more light with bigger pixels in low light.

Optical Image Stabilisation

Captures all the emotions in motion

By freeing you from bulky tripods and physical stabilizers, Blackview BV8900 with OIS kicks in to make up for handshakes, which lets you record shake-free images with ease even when you are traveling along a bumpy road.

Transform unevenly light of the same scene into an image with improved image highlights and more vivid shadows.

Beauty Mode uses an advanced AI algorithm to blur out the imperfections while keeping your natural beauty features, making the image different for each unique face.

Take a picture that focuses on your fave face and blurs the backdrop, so you can stand out from the crowd right away thanks to the Portrait Mode.

Super Night

Enhancing your photos' clarity even in low light, it clearly displays each bright and dark detail with a picture quality that is more akin to reality.

Google Lens

Simply turn on the camera and scan what you want to know—translate the text you see, capture the homework for help, point at the building for details and etc.

Pro Mode

To satisfy diversified and personalized shooting needs, Pro mode supports manual adjustment of sensitivity, shutter speed, focus mode, and white balance

Pro Mode

To satisfy diversified and personalized shooting needs, Pro mode supports manual adjustment of sensitivity, shutter speed, focus mode, and white balance

Mono Mode

By removing the distraction of color, Mono Mode makes your images more expressive with an emphasis on shape and form.

Up to 4K Video Recording with Beauty Mode

While recording high-quality video in stunning 4K resolution, it enhances your natural beauty that captures your essence in the most flattering way possible.

Summary: Blackview BV8900. Display diagonal: 16.5 cm (6.5"), Display resolution: 2400 x 1800 pixels. Processor frequency: 2.2 GHz, Processor family: MediaTek, Processor model: Helio P90. RAM capacity: 8 GB, RAM type: LPDDR4X, Internal storage capacity: 256 GB. Rear camera resolution (numeric): 64 MP, Rear camera type: Dual camera. SIM card capability: Dual SIM. Operating system installed: Android 13. Battery capacity: 10000 mAh. Product colour: Black.
