remarkably fluid at those moments where every frame can swing the outcome from defeat to victory. Enhanced with AMD FreeSync™ Premium technology, the monitor effectively eliminates screen tearing and reduces stuttering, allowing you to stay fully immersed in seamless, high-octane action. Taking the immersion further, the lightning-fast 1ms (MPRT) response time ensures that on-screen actions are as instantaneous as your reflexes, enabling you to dominate the battlefield with near lag-free, pinpoint accuracy. Beyond the VX2758A-2K-PRO-3 gaming monitor's powerful performance, it comes equipped with versatile connectivity options, including dual HDMI 2.1 inputs and DisplayPort. This allows for seamless switching between multiple connected PCs, game consoles, and other devices, making it not only a powerhouse for gaming but also versatile enough to excel in cinematic entertainment and boundless creative projects.

GAME ON, GLARE OFF

Get captivated by stunning visuals with the VX2758A-2K-PRO-3's SuperClear® IPS panel. Delivering vivid, lifelike colors from wide viewing angles, it's perfect for intense multiplayer gaming sessions or relishing your favorite videos.

NEVER MISS A FRAME

Indulge in seamless gaming and video editing with the hyper-responsive 240Hz refresh rate. It captures every frame so you never miss a beat, allowing you to dive into smooth, immersive visuals that sharpen your precision and give you the edge in competitive gaming.

DOUBLE THE PIXELS, DOUBLE THE CLARITY

Dominate your games with crystal-clear clarity on the crisp 2K QHD resolution and cinematic 16:9 aspect ratio display. Boasting twice the number of pixels as a standard 1080p display, this gaming monitor renders the action with remarkable detail without distortion.

REACT WITH PRECISION

Crush the competition with precision, thanks to the rapid 1ms (MPRT) response time. It ensures fluid pixel transitions and vibrant colors, rendering even the fastest action on the battlefield in stunning clarity with minimal ghosting.

SYNC INTO VICTORY

Become one with the game thanks to the integrated AMD FreeSync™ Premium technology. This synchronizes the monitor's refresh rate with your graphics card's output to minimize stutter and screen tearing, ensuring uninterrupted immersion during intense gaming sessions.

SEE BEYOND THE ORDINARY

Upgrade your viewing experience to a whole new level with HDR10 technology. It illuminates gaming worlds in vivid detail, rendering them with deeper blacks, brighter whites, and an expanded range of colors that create a captivatingly realistic picture.

SEE BEYOND THE ORDINARY

Upgrade your viewing experience to a whole new level with HDR10 technology. It illuminates gaming worlds in vivid detail, rendering them with deeper blacks, brighter whites, and an expanded range of colors that create a captivatingly realistic picture.

SQUINT LESS, WIN MORE

Revitalize your gaming sessions with the integrated EyeProTech technology. Combining cutting-edge flicker-free and blue light filter technologies, it minimizes screen flicker and harmful blue light emissions, banishing digital eye strain during epic gaming marathons.

LEVEL UP YOUR CONSOLE EXPERIENCE

Engineered for flawless PS5 and Xbox compatibility, the VX2758A-2K-PRO-3 captivates with breathtaking visuals and responsive gameplay. Dive into vivid worlds, feel the intensity of every explosion, and execute every action with rapid precision, no matter your console of choice. Visit the link for instructions on enabling 120Hz video output to the VS2758A-2K-PRO-3 from your PS5 or Xbox Series X/S.
