sleek dimensions create a product that delivers all you need. Adaptive™ Sync virtually eliminates screen tearing and stuttering for a fluid gaming experience. And the 1ms MPRT response time enables you to react in-game with complete precision. VX2719-PC-MHD is also equipped with ViewSonic's exclusive ViewMode™ presets, which offer optimized screen performance for a variety of needs, such as gaming, editing, or watching movies. In addition, a DisplayPort and HDMI inputs offer flexible connectivity for gaming and entertainment.

Seamless Gameplay

VX2719-PC-MHD features an ultrafast 240Hz refresh rate that delivers esports level experiences. Lag and motion blur are virtually eliminated providing incredibly smooth visuals. Whether first-person shooters, racing or real-time strategy, your gaming and PC experience is upgraded with fluid motion and flawless graphics.

Ultimate Immersion

Immerse yourself further into the action with a 27" curved screen. The deeper 1500R curvature strikes the perfect balance of comfort and immersion.

React Instantly

Ultrafast 1ms (MPRT) response time delivers smooth visuals and minimizes motion blur and ghosting. When you are deep in the action, you'll be glad your monitor reacts as quickly as you do, helping to claim more victories.

Prevent Screen Tearing

Experience fluid graphics across all your games with Adaptive™ Sync. By synchronizing your monitor refresh rate with your GPU output, Adaptive™ Sync works to enable smooth gameplay by eliminating stutter, input lag and image tearing.

Render Every Detail

Experience every detail of your game with an expansive 27", Full HD display. The high-definition display showcases all the action, and all the glory, with incredible detail.

Wide Angle SuperClear® Technology

See the action from every angle with SuperClear® technology. This monitor delivers the same image quality no matter the angle.

Mega Dynamic Contrast

A mega dynamic contrast ratio of 80M:1 creates depth in images by adding more definition to the darkest and brightest colors on the screen to ensure images are shown with the finest details.

User-Customized Game Mode

ViewSonic's exclusive ViewMode™ offers specialized presets to fit different usage scenarios. These presets enhance gamma curve, color temperature, contrast, and brightness to deliver the optimal viewing characteristics for each application. The Game Mode integrates pre-calibrated FPS, RTS and MOBA game settings with in-game testing and adjustments for the best blend of color and technology.

Dual Integrated Speakers

The monitor accents its incredible screen performance with dual, 2-watt speakers. Incredible stereo sound to complete your gaming experience.

Viewing Comfort

Flicker-Free technology and a Blue Light Filter help reduce eye strain and fatigue from extended screen time during a gaming marathon.
