Big Productivity in a Small Package

ASUS GeForce RTX™ 3050 LP BRK is a low-profile, compact graphics card that enables multi-monitor productivity.

IP5X Dust Resistance

Keep it clean

Dust is enemy number one for fans. It’s easy to clean the blades, but taking the fan apart to remove dust that has made its way inside is not a simple task. Passing the IP5X certification means the housing is safe from nasty particulates, so you'll never need that deep clean.

Auto-Extreme Technology

Precision automated manufacturing

Auto-Extreme Technology is an automated manufacturing process that sets new standards in the industry by allowing all soldering to be completed in a single pass. This reduces thermal strain on components and avoids the use of harsh cleaning chemicals, resulting in less environmental impact, lower manufacturing power consumption, and a more reliable product overall.

GPU Tweak III

Monitor, tweak, and tune

The ASUS GPU Tweak III utility takes graphics card tuning to the next level. It allows you to tweak critical parameters including GPU core clocks, memory frequency, and voltage settings, with the option to monitor everything in real-time through a customizable on-screen display. Advanced fan control is also included along with many more features to help you get the most out of your graphics card.

144-hour Validation Program

“Extensive” may be an understatement

A 144-hour validation program puts cards through a series of stringent tests to ensure compatibility with the latest games.

Pair with a PSU

Use our wattage calculator to estimate how much power you’ll need to fuel your rig and then pick a compatible ROG, TUF Gaming or Prime PSU for ultimate performance.
