Capacities For You To Store All Your Data

Find the capacity that best suit your needs as the JumpDrive P30 comes in a wide range of capacity options—from 128GB up to 1TB, so you can find the right one to store and backup all your files with ease.

Securely Protect Your Files

For professionals who are looking to protect their personal information, financial records, or other confidential files, the Lexar JumpDrive P30 comes with 256-bit AES encryption to help protect your essential files against corruption, loss, and deletion for added security. Easily create a password-protected vault that automatically encrypts data and for added peace of mind, files that are deleted from the vault are securely erased and can’t be recovered.

Compact And Durable Metallic Design For Convenient Use

The sleek, metallic and portable flash drive is designed for convenience and also comes with a genuine leather case for added protection. And with its plug-and-play ability, the powerful performance of the P30 is simple to use with PC, laptops and more.

Rigorously Tested

All Lexar product designs undergo extensive testing in the Lexar Quality Labs,facilities with more than 1,100 digital devices, to ensure performance, quality, compatibility, and reliability.

- USB 3.2 Gen 1 Performance
- Premium Metal Design
- Large Capacity Options
- 256-bit AES Encryption
