makes it snugly fit in a palm and renders a comfort grip.With a compact body of only 208g, you can bring it with you lightly, in your pocket, bag, anywhere.

QHD+ Display

Bring All Your Content to Life

N6000, housing a QHD+ display with 540*1200 resolution , renders 306 PPI for more dynamic images and sharper text. The display is always brilliant with 450 nits of brightness. Viewing can be truly comfortable both indoors and outdoors.

MiraVision Technology

Enhanced visual experience achieved by intelligently altered picture attributes

3,880mAh Battery with

Up to 18-day Standby

Mini Sized, Long-lasting Powered

Thanks to the dual cell solid state battery introduced by professional Blackview R&D Team, N6000 incorporates a 3880mAh battery under the hood. With only one single charge, N6000 ensures a longer exploration and constant fieldwork for you in the outdoors with up to 18 days of standby.For only 87 minutes, N6000 will be ready for your journey at full charge with a 18W fast charge.

Ultra-linear Box Speaker with Smart-PA

Louder and Brighter, Clearer and Smoother

Coupled with a Smart-PA ultra-linear box speaker, working in tandem with sound enhancement options, N6000 can serve as ‘an interphone’ in a noisy environment; or as a music player for a feast for your ears, N6000 escorts your audio journey with peace of mind.

NO.2

Top Ruggedness

Forged to Redefine Ruggedness

Despite its mini size, N6000 is engineered by Blackview, which has been devoted to rugged smart devices for more than 10 years, from inside out, with elaborate design and is made of selected materials to level up its ruggedness for water, dust, shocks, drops, and rough elements to new heights.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. Corning® Gorilla® Glass 5

Rest Assured from Scratches and Cracks

Blackview built N6000 with Corning® Gorilla® Glass 5 as its screen for improved toughness to protect it from cracks and thick scratches caused by accidental drops and falls.

MIL-STD 810H

Gear Up for Any Situations

To meet with people like outdoor enthusiasts in the modern age pursuing outdoor activities and facing dangerous uncertainties, Blackview N6000 has passed through a barrage of tests with military spec 810H for your peace of mind while confronting harsh environments.

Leading IP68 & IP69K

Water and Dust, Not a Problem.

Still worry about phones dropping off into the water or suffering damages from dust and water? With an ingress protection rating of IP68 & IP69K, N6000 is certified to be impervious to water and dust. Bring N6000 with you to a damp and dusty environment with confidence and smoothly get your work done.

Useful ToolKit

Your Handy Good Helper

Whether for kicking start a rugged life or for daily life use, N6000 will be your trusted aide to include all you need in the useful ToolKit.

Solid State Battery

Strongly Power You Up from -40°C-80°C

With the solid state battery incorporated, N6000 is fearless of temperature extremes ranging from -40 ℃ -80 ℃ (-40°F to 176°F). Through tests like needling, the built-in battery empowers N6000 with greater capability to withstand high pressure and drop impact. Whether through the glaciers and mountains or across the desert, you will be backed up with N6000, your faithful assistant rendering useful help on your way adventuring.

6nm MediaTek Helio G99 Catches up with and

Surpasses Some of 5G Chipsets

6nm MediaTek Helio G99

Strong Heart, Powerful

Performance

Treated by 6nm-class production process, MediaTek Helio G99 , featuring 2 high-performance Arm Cortex-A76 processors and a capable Arm Mali G57-class GPU with data access of LPDDR4X memory up to 2,133MHz and UFS2.1-class storage, renders exceptional performance for N6000 in games, apps and everyday activities with incredible power efficiency.

MediaTek HyperEngine 2.0 Lite Gaming Technologies

Resource Management Engine 2.0

This feature ensures sustained performance and smoother gameplay that lasts longer.

Networking Engine 2.0

N6000 with Networking Engine gives faster response and more reliable connectivity to ensure you always stay connected, even when you defer calls while in-game.

8GB RAM + 8GB Expansion = Up to 16GB RAM

256GB ROM

Go Further than to Suffice

N6000 enables you to store more files and apps with 256GB ROM. With up to 16GB RAM , of which 8GB can be expended without cost, N6000 tackles multitasking and data processing in a breeze.

Fourfold Integrated Cooling System

CPU Temperature Reduction Up to 15°C

Smart Pre-Loading

With Smart Pre-loading backed by DokeOS 3.1, N6000 can anticipate which app you are going to launch and help accelerate your app launching speed by 25% .

Atomized Memory Technology

Atomized Memory is a RAM optimization engine. It analyzes the memory usage pattern of your apps

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
shop.cssi.co.za | sales@cssi.co.za | +27 (11)541-9950

and compresses the RAM of each app into the smallest possible unit to ensure the best RAM performance. As a result, N6000 launches apps and multitasks faster by 17%.

Low Memory Killer Technology

With the advanced Low Memory Killer (LMK), N6000 prioritizes foreground apps with more memory and CPU computational power by intelligently reducing unimportant background app processing to achieve up to 15% smoother and more efficient system running during multitasking.

Brand-new Experience Brought by All-new Platform

Blackview utilizes Android 13 on N6000 to bring users a newer experience from Android 12 with upgrades for more personal settings and more comprehensive protection with higher privacy and security.

Per-app language preferences

Always the right language.

Assign different language settings to individual apps, so that you can move fluidly between languages on your device, just like in real life.

DAC & MAC Double Protection Safeguards Your Privacy.

As DAC (Discretionary Access Control) allows a lot of freedom for users and has several considerable limitations, rendering flexibility, scalability and simplicity for a simple and uninterrupted workflow, N6000 delivers a higher level of security with MAC (Mandatory Access Control), whose high privacy has been embodied by its application to the NSA.

Security that keeps your data protected all day.

From the moment that you turn on N6000, it works to keep your data safe and secure. You have more control over what information apps can and can’t access - including specific photos, videos and clipboard history.

Notification permissions Stop the dings, rings, and pings.

You’re in control of which apps can send you notifications - helping you limit distractions.

Cleared clipboard history

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
shop.cssi.co.za | sales@cssi.co.za | +27 (11)541-9950

With Android 13, N6000 has safeguards built in to help protect your personal data. To protect the information on your clipboard, you'll get an alert when an app accesses it, and your clipboard history will be cleared after a period of time to prevent unwanted access.

Permission Manager Get non-stop protection at every turn.

Afraid of theft of information from malware and want to get rid of hassling from spam? N6000 will ease those for you. You will be the only decider of which apps to access your information.

App Pinning

This feature allows you to keep the current app in view until you unpin it.

The Up-to-Date DokeOS 3.1 Simpler and More Considerate

Matching with its mini size, N6000 is engineered with the newly-customized DokeOS 3.1 UI system to render users an all-new experience to lead a simple lifestyle with simpler interface and more considerate settings for daily use.

New StepCount App Every Step Counts

Blackview Software Team has streamlined the cumbersome programs to simplify your busy lifestyle. Just set up your workout schedule. N6000 will track your daily steps to help you develop a healthy lifestyle.

Eye Comfort Modes

Adjust the colors and textures of the items on your screen to deliver a more comfortable and enjoyable visual experience.

NO.4

Remarkable Photography

48MP Rear Camera

Ready For Any Moment

Whether day or night, indoors or outdoors, Blackview N6000 with 48MP Samsung® ISOCELL GM2 rear camera will never let you down to render vibrant pictures with the same clearness.

TetraPixel Technology

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
shop.cssi.co.za | sales@cssi.co.za | +27 (11)541-9950

Replicate night landscape with jaw-dropping light sensitivity

Super-PD Auto Focus

Capture every motion in sight with clearness

Smart-ISO

With less noise in low-lit environment while with more detail and in more vivid color in sunny outdoors

16MP Front Camera

Click away, Features Stay.

Taking advantage of Re-mosaic Algorithm and its Quad Bayer color filter array, the 16MP SK Hynix® HI-1634Q front camera renders satisfying photography performance with high color accuracy, replicating the truest color of people, food, landscapes, and more. Whether video calls or selfie shooting, all are made easy with N6000. Crack a smile and freeze it with vivid images.

Improved HDR

Blackview combines HDR for a natural rendering of vibrant pictures at different exposure levels. This feature enables shooting for various scenarios with great details and vivid colors.

Night Mode

Night mode brings night photography to the next level, capturing clear pictures with more details even in dimly-lit conditions.

Beauty Mode

Beauty Mode automatically airbrushes faces with blemishes brushed away for refined skin texture and complexion, delivering natural faces.

360° Panorama

Panorama seamlessly stitches all you see into one frame. Turn to the Panorama and shoot an endless captivating vista of snow peaks and shadowed valleys.

Portrait Mode

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
shop.cssi.co.za | sales@cssi.co.za | +27 (11)541-9950

Portrait Mode captures pictures with naturally blurred backgrounds and more conspicuous subjects.

Pro Mode

Challenge More Photographic Possibilities

Blackview assigned N6000 with Pro mode for customized photography. Attributes can be adjusted as you want. Play with light and shade and explore more possibilities with Pro Mode.

Cinematic 2K Video Recording with Beauty Mode

Every Marvelous Motion Maintained

Being a vlog master can’t be ever easier with 2K video recording, even with Beauty Mode. Every moment freezes and every frame in the video stays alive.

Face Fill Light

Taking a selfie outdoors at night is a complete no-brainer with Face Fill Light. Selfie-friendly N6000 lets you never comprise on light conditions and take pictures of yourself and friends day or night.

Smart Google Lens

Intelligent Search, Efficient Life.

Through the lens, instantly get all done, including translation, text extraction, recognition, and even more. Just open the camera, take a picture and choose the right way to solve your problem.

GPS & GLONASS & Beidou & Galileo

Precise Location for Secure Journey.

With the 4-in-1 navigation system, security on your adventure is ensured and all you need to do is to input your destination and follow the direction.

Fingerprint & Face Unlock

Safeguard Your Privacy

Get rid of too many passwords in your career by granting your fingertip unlock and face unlock. With a glance or a touch, you can get into N6000 in a minute and only you.

Multifunctional NFC

N6000 with NFC support facilitates your life further, data exchange, mobile payment, public

shop.cssi.co.za | sales@cssi.co.za | +27 (11)541-9950

transport ticket purchase and even more.

2.5W OTG Reverse Charging Support

Your Backup Power Bank at Standby

While you forget to charge your wireless earphone and you are in the middle of enjoying your concert, that it suddenly ran out of juice happens. This feature will serve to help.

Customized Shortcut Button

Tap, Press, and Get into the App

With custom key settings enabled, N6000 makes one-handed operation even easier. Program and quickly reach your frequently-used apps with a single tap or a long press on the side button.

Dual 4G VoLTE

Stay Wired and Stay Connected

With dual nano SIM slots, N6000 supports dual 4G VoLTE. You can switch flexibly between to get the best internet choice and ensure a stable internet connectivity. No more worries about losing connection.
