Brilliantly Compact

The HyperX Alloy Origins 65 is a balanced keyboard which blends compactness and functionality, but compromises nothing. A 65% form factor makes it more compact than a tenkeyless keyboard, while still offering arrow keys. With a durable, full aluminum body, and balanced HyperX switches rated to withstand 80 million keypresses, it's as reliable as it is compact. The stock double shot PBT keycaps have the keys' secondary functions printed on them so you can quickly locate any additional functionality you need. Let your style shine bright with the HyperX switches' exposed LED design, and stunning lighting effects. Further customize your keyboard with macros, personalized lighting profiles, and more with HyperX NGENUITY software.

- An optimized balance of compactness and functionality. The 65% form factor frees up more mouse space than a tenkeyless keyboard, but keeps dedicated arrow keys, Page Up/Down, Home, and Delete keys.
- The aluminum casing keeps the keyboard structurally sound and stable when the action gets intense and the game hangs in the balance; battle after battle, night after night.
- The keycaps are designed with durable PBT material that is resistant to wear, friction, and solvents. Secondary functions are printed on the sides of the keycaps for quick recognition.
- Reliable HyperX key switches are balanced for speed and accuracy to help provide the best of both worlds; faster keypresses with fewer mistakes. With an exposed LED design, they deliver stunning RGB lighting that really stands out.
- Get brighter, more luminous RGB lighting, thanks to the exposed LED design of the HyperX mechanical switches.
- Customize Game Mode, build macros, and set up per-key lighting and effects.
- Two-step keyboard feet allow you to set your keyboard up at 3 different tilt angles. A detachable USB-C cable makes this ultra-compact keyboard super portable.
- A keycap puller, an additional Esc key, and the special alternate spacebar design for the Alloy Origins 65 are included for additional customization.

Technical specification disclaimers:

Per key RGB lighting customizable with HyperX NGENUITY software.

Accessory keycaps are ABS material.
