1ms MBR helps you see the action and opponents with low rates of image blur for a clear gaming advantage.

Enjoy The Latest Video and Games in HDR

To better realise the vision of content creators, this monitor is compatible with industry-standard HDR10 (High Dynamic Range), supporting more detail in the brightest and darkest parts of an image when viewing HDR content.

Clearer, smoother, and faster

AMD FreeSync compatibility brings clearer, faster, smoother game play. Reduce screen tearing and minimize stutter and input lag to experience virtually seamless, fluid movement in high-resolution and fast-paced games.

Designed for the gamer

Enhance your gaming experience with a 3-sided narrow bezel design for an immersive view and tilt adjustable base to help you play the game more comfortably.
