

KEYBOARD G413 GAMING ENG/920-008476 LOGITECH

Model: 920-008476

Manufacturer: LOGITECH

EAN: 5099206071766

Product Code: 334106

R2,661

Pure Performance Design

G413 mechanical gaming keyboard delivers unrivaled performance, and advanced technologies and features, in a thoughtfully balanced, modern design. Featuring Romer-G™ switches, used by eSports professionals worldwide, G413 provides unparalleled speed, responsiveness and durability.

Beauty in details makes G413 a keyboard with presence. The lightweight, high strength 5052 aluminum alloy top case adds rigidity and a premium look while achieving the slim, blade-like form factor.

G413 is balanced with just the right features: Precision backlit keys, onboard USB passthrough and integrated media keys.

Underneath, G413 has a few surprises with mouse and headset cable management, plus adjustable-height feet with rubber stabilizers for confidence during intense gameplay.

- The Romer-G™ advanced mechanical switch is purpose-built for pro-grade performance, responsiveness and durability. The short-throw actuation at 1.5 mm is up to 25% faster than the competition's standard mechanical switches. A perfect blend of speed, precision and quiet performance, Romer-G is the stealth assassin of mechanical gaming keyboard switches.
- Romer-G is also purpose-designed for precise and clean lighting through the keycap. So, keys are always visible and never distracting, especially during late night gaming sessions (the best kind). That's how G413 Carbon in elemental red backlighting and G413 Silver in iconic white achieve their premium, focused look.
- The brushed aluminium-magnesium alloy top case serves as the keyboard's backbone. The result is a minimal design balanced with a full set of features. With a focus on high-end finish and performance, G413 is crafted from the highest-grade materials.
- Convenience and speed are directly within reach. The additional, dedicated USB cable connects the USB passthrough port to its own input for 100% power throughput and data speed. Plug in a device to charge or plug in a mouse to charge your adversaries, without missing a beat.
- Function (FN) keys let you control volume, play and pause, skip track, mute, toggle lighting, enter game mode, etc1. Even with a clean and simple design, G413 is packed with the features gamers need.
