Transfer in a blink of an eye

The ESD270C is equipped with the USB 3.1 Gen 2 interface with the support of UASP (USB Attached SCSI Protocol), providing transfer speeds of up to 520MB/s.

Compact and lightweight

Pack light! The credit-card size ESD270C, with mere 9.6mm in height, fits perfectly in your wallet or purse, and takes up little space in your briefcase. The anti-scratch coating means the external SSD will look sharp even after all the miles. With a reflective black case, you'll be both savvy and stylish.

Expand storage in a flash

The ESD270C provides up to 1TB of storage capacity, ensuring you have plenty of space for backups, as well as storing your high-resolution images, 4K videos, and other media files!

Great compatibility

In addition to desktop and laptop computers, the ESD270C can also be used with many other devices, such as on-the-go mobile devices and gaming consoles, providing ultra-fast transfer speeds and extra large capacity expansion.

Type-A and Type-C cables included

The ESD270C comes with both a USB Type-C cable and a USB Type-C to Type-A cable to accommodate desktops and laptops featuring the USB Type-C or USB 3.1 interface.

Powerful 256-bit AES encryption

Transcend's ESD270C supports 256-bit AES encryption to securely and reliably protect data at the hardware level. AES (Advanced Encryption Standard) is a cryptographic algorithm defined by the National Institute of Standards and Technology (NIST). Encryption and decryption are processed strictly within the SSD controller and completely independent of any OS or program, making hardware-based AES impossible to decipher.

One touch to back up all files

The ESD270C is equipped with a convenient auto-backup button for instant data backup when used with Transcend Elite software.
