ONIKUMA RGB Gaming Mouse CW905 Purple

The ONIKUMA CW905 represents a range of mice designed for gaming, offering users a range of customization options. The ability to choose from six different DPI levels allows for increased precision in reading hand movements, which in turn translates into smoother cursor movement. It also comes with a set of seven buttons, including a left and right mouse button, a middle mouse button/wheel, a forward button, a back button and two DPI buttons, which provide quick access to key functions during gaming. Interestingly, the device emits light in six different colors, giving users the ability to customize the mouse to their visual preferences. An added bonus is the ergonomic design, created with easy-to-clean materials.

Advanced control

ONIKUMA CW905 is a gaming mouse that fully combines functionality with precision. The leading value of this mouse is the option to choose from six DPI levels, which opens the door to meticulous calibration of the device according to personal preferences. Each of these levels guarantees even more accurate reading of hand movements, which in turn affects the smoothness of cursor movement.

Ergonomic functionality at your fingertips

The ONIKUMA CW905 is equipped with a set of seven buttons, including left and right mouse buttons, mouse wheel/center button, forward and back buttons, and DPI+ and DPI- buttons. This smart configuration creates instant access to key functions without the need for separate movements. Thus, it provides lightning-fast responses and efficient operation both during gameplay and when performing various tasks.

Variable lighting

The ONIKUMA CW905 is further distinguished by its dynamic LED backlighting, which presents a palette of six varied colors: green, pink, blue, red, cyan and yellow. This is much more than just a retail aspect - it is a feature that allows you to personalize the mouse and create a unique style.

Comfortable to use

The ONIKUMA CW905 mouse also impresses with its ergonomic design, created from easy-to-clean materials. The surface is resistant to fingerprints, sweat, etc. This ensures comfort even during long gaming or work sessions. All these features add up to the comprehensive quality of the ONIKUMA CW905, which meets the needs of even the most demanding gamers.
