Minis Forum UM890 Pro Ryzen 9 8945HS barebone MINI-PC

The Minisforum UM890 Pro is a mini-PC that combines high performance with small size, perfect for both work and entertainment. Equipped with an AMD Ryzen™ 9 8945HS processor with 8 cores and 16 threads, it offers excellent power for performance-intensive tasks such as video editing, gaming and AI-based applications. With a maximum frequency of 5.2 GHz, the device delivers smooth performance even for the most demanding tasks. Note: the device does not include RAM and SSD.

Efficient operation

The UM890 Pro uses a frequency of 5600 MHz, which guarantees fast processing and smooth system operation. In addition, the device features two M.2 PCIe 4.0 SSD slots, allowing for a maximum—

storage capacity of up to 4 TB. So you can count on lightning-fast data transfers and quick access to files.

Advanced graphics and multi-screen support

The integrated AMD Radeon™ 780M graphics chip supports high-quality entertainment, allowing you to enjoy advanced multimedia and gaming. The mini-PC supports simultaneous connection of up to four screens, ideal for professionals who need an expanded workspace.

Wide range of ports and wireless connectivity

The UM890 Pro Mini-PC offers a wide range of ports, including four USB 3.2, one USB4, two RJ45 2.5G Ethernet, HDMI 2.1, DP1.4 and audio jacks. With support for WiFi 6E and Bluetooth 5.3, the device provides a stable and fast connection to the Internet and other devices.

Efficient cooling and robust design

The advanced Cold Wave 2.0 cooling system using liquid metal and active cooling for RAM and SSD ensures stable operation even under heavy load, while minimizing noise. With VESA mount compatibility, the mini-PC can be easily mounted on the wall or on the back of a monitor, saving desktop space.

Manufacturer	Minisforum
Model	UM890 Pro
Processor	AMD Ryzen™ 9 8945HS
Architecture	Zen 4
Number of cores	8
Number of threads	16
Base frequency	4.0 GHz
