OneOdio Studio Max 1 wireless headphones (black)

Forget about compromises and immerse yourself in pure sound. OneOdio Studio Max 1 are headphones created for those who expect more - precise, dynamic sound, full freedom of connection and comfort even during long hours of sessions. With 50-millimeter drivers and LDAC codec support, every note sounds like you're listening to it live. Four connection modes - Bluetooth 5.3, 3.5mm cable, 6.35mm cable and ultra-low-latency adapter mode - let you customize the headphones for any situation, from professional mixing to gaming. And when time is of the essence, instant charging provides up to 5 hours of playback after just 5 minutes of plugging in. These are more than headphones - they're your new way to perfect sound wherever you are.

Hi-Res audio and LDAC

Feel the difference! With high-resolution audio, you'll hear every detail of the recording. OneOdio Studio Max 1 support the certified Hi-Res Audio standard, guaranteeing rich tones and pristine quality. LDAC technology allows audio to be transmitted at up to 990 kbps, which is three times faster than the standard SBC codec. That means deeper bass, clearer vocals and a fuller spectrum of sound that makes music, games and movies sound the way their creator intended. Wireless or wired - you always hear more.

Reliable connection - whenever you need it

Whatever the situation, the OneOdio Studio Max 1 give you complete freedom. You can connect wirelessly via Bluetooth 5.3, use an adapter (included) or plug in 3.5mm and 6.35mm cables for classic analog sound. These are headphones that fit your work and entertainment style - perfect for guitar playing, mixing, DJing, but also for everyday use.

Professional connectivity without lag

For those who demand absolute audio precision, OneOdio Studio Max 1 offer a special adapter with an ultra-low latency of just 20 ms. It's a solution designed for musicians, DJs, producers and gamers who need instant audio response without lag. The Dongle allows you to connect wirelessly to musical instruments, DJ consoles, computers or audio systems for seamless audio synchronization. If you are mixing live music, creating in the studio or want to enjoy great sound while playing - this is the solution for you.

120 hours of playback

Forget about constant charging. In Bluetooth mode, the OneOdio Studio Max 1 offer up to 120 hours of operation, and a five-minute quick charge provides up to 5 hours of playback. Using a dongle? In this mode, the battery lasts up to 50 hours. The Studio Max 1 is the solution for those who appreciate long music sessions without unnecessary interruptions.

Crystal clear calls

The OneOdio Studio Max 1 not only offers exceptional sound quality, but also excellent call clarity. Thanks to dual microphones with advanced ENC noise cancellation, your voice calls will sound

natural and clear, regardless of the environment. This technology effectively eliminates background noise, amplifying your voice and ensuring that even in noisy environments your callers will hear you without interference. This is ideal for professionals who frequently make phone calls, stream live or participate in video conferences - without compromising on sound quality.

A new dimension of comfort

The headphones are designed with long-term use in mind. Pleasantly soft earcups effectively isolate ambient sounds, and the ergonomic design of the headphones allows you to listen for hours without feeling tired. They are ideal for both professional work and relaxation at home. The Studio Max 1 are also easy to store - just fold them up and stow them in the included fabric case.
