Huion HS64 SE graphics tablet

Model: HS64 SE

Manufacturer: HUION

EAN: 6930444801304

Product Code: 353030

R1,776

Huion HS64 SE graphics tablet

Huion HS64 SE is an advanced graphics tablet that combines original design with advanced functionality. Its compact form factor, thickness of just 8 mm and 160 x 102 mm working surface make it ideal for both drawing and gaming. With a pressure sensitivity of 8192, a high pen resolution of 5080 LPI, and a very fast response of 233 PPS, the device offers precise and smooth reproduction of every movement. Its compatibility with multiple operating systems and popular graphics programs makes it a versatile tool for digital artists of any skill level.

Design that inspires

The Huion HS64 SE tablet catches the eye with a fun, charming design featuring an image of a cartoon duck and delicate star accents on the surface. With a slim design that is only 8 mm thick, the device can easily fit into a backpack or bag, making it an ideal choice for mobile workers or frequent travelers.

The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Ideal space for creating

The 160 x 102 mm work surface is a compromise between mobility and convenience. It provides enough space for free drawing, designing or playing rhythm games, while guaranteeing full working comfort.

Professional precision and smoothness

The battery-free pen provides a natural drawing experience without recharging, and the 8192 pressure levels allow you to create both fine lines and strong strokes. The high resolution of 5080 LPI allows you to reproduce even the finest details, and the impressive response speed of more than 233 dots per second eliminates lag, ensuring uninterrupted work even with dynamic sketches.

Shortcuts at your fingertips

Four customizable express buttons allow you to assign your favorite functions, significantly speeding up the creative process and making it easier to work with various programs. Their convenient placement and pleasant-to-touch material are additional ergonomic advantages.

Universal compatibility

HS64 SE works with computers and mobile devices running Android 6.0 or later (with OTG support). It supports Windows, macOS, Linux and Android, and works seamlessly with popular graphics programs such as Photoshop, Illustrator, Painter, SAI, GIMP, CLIP Studio, Krita and ibis Paint. Whether you're creating illustrations, sketching, editing photos, or just want to gain more control in computer games, the HS64 SE provides the tools to meet your needs
