Graphic Tablet Huion HS611

Model: HS611

Manufacturer: HUION

EAN: 6930444801519

Product Code: 353033

R2,589

Graphic Tablet Huion HS611

The Huion HS611 is a graphics tablet with a working surface of 258.4 x 161.5 mm that weighs just 550 g and is 7.3 mm thick, making it suitable for both desktop and outdoor use. It supports 8192 pressure levels and detects the tilt of the stylus up to ±60°, allowing it to accurately reproduce every hand movement. A reporting rate of over 233 PPS and a resolution of 5080 LPI ensure smooth, accurate operation without lag. The device features 10 programmable keys and a touch bar, as well as a separate media bar for music control. A USB-C port is used for connection. The hardware is compatible with Windows, macOS, Android and Linux.

Wireless stylus included

The tablet comes with a Huion PW500 stylus, which uses electromagnetic resonance technology. As a result, you don't have to replace the battery in it or remember to charge it. The device works as soon as you bring it close to the work surface and detects movement from as little as 10 mm away.

Pressure sensitivity and motion tracking accuracy

The Huion HS611 tablet responds to 8192 levels of pressure, which allows you to reflect the differences in the force of your hand while drawing. This makes every sketch, shadow or outline look natural and as intended by the creator. The high input resolution of 5080 LPI enables the rendering of details.

Pen tilt recognition

The device detects the tilt of the stylus within a range of ±60°, providing the ability to guide the line naturally when the angle of the hand changes. This feature works well for shading and sketching, increasing control over the effect without having to change the tool in a graphics program.

High responsiveness without lag

With a refresh rate of more than 233 PPS, every stroke is captured instantly. Even fast hand movements translate into smooth lines on the screen without rippling. This allows you to create dynamically without disrupting the rhythm of your work.

Configurable buttons and touch bar

The Huion HS611 graphics tablet offers 10 buttons and a touch bar that can be freely programmed. Assigning selected functions speeds up work and reduces dependence on the keyboard.

Control multimedia without interrupting your work

The multimedia bar allows you to control music playback and switch programs. It allows you to manage your sound and working environment without leaving the graphics application. The function is the default and cannot be changed. It was created to positively affect concentration and work comfort.

Wide system and software compatibility

The Huion HS611 works with Windows 7 or later, macOS version 10.12 and above, Android 6.0 and above, and Linux. It does not support iOS. The tablet works with many popular graphics programs,

including Photoshop, Illustrator, SAI, GIMP, Krita, Painter or ibis Paint. A reversible USB-C port makes it easy to connect to other devices without having to control the orientation of the plug. This type of design makes it easier to use when access to the port is difficult or lighting is unfavorable.

Included:

- Graphics tablet
- Stylus pen
- USB cable
- Stylus pen holder
- Spare tip x8
- User manual

Manufacturer	Huion
Model	HS611
Dimensions	333.4 x 218.4 x 7.3 mm
Working area	258.4 x 161.5 mm
Weight	550 g
Touch function	Touch bar
Interface	USB-C
Stylus model	PW500
Technology	batteryless, EMR
Resolution	5080 LPI
Pressure sensitivity	8192 levels
Maximum tilt	±60°
Detection height	>10 mm
Reading speed	>233PPS
Accuracy	+0.3 mm
Buttons	10 programmable physical buttons, 8 programmable multimedia buttons
Compatibility	Windows 7 or later, macOS 10.12 or later, Android 6.0 or later, Linux
