Model: GT1302

Manufacturer: HUION

EAN: 6930444802530

Product Code: 353039

R8,575

Huion Kamvas Pro 13 (2.5K) graphics tablet

The HUION Kamvas Pro 13 (2.5K) is a graphics tablet that takes digital creative quality to the next level. Equipped with a 13.3-inch IPS screen with 2.5K (QHD+) resolution, it offers a density of as many as 266 pixels per inch, which translates into extremely sharp and detailed images. The screen's 16:10 aspect ratio makes better use of workspace than the traditional 16:9 format, giving users a wider view (178°) and more room for creative activities - from drawing to photo editing or UI design.

Sleek, lightweight and ready to work anywhere

The Kamvas Pro 13 (2.5K) chassis is made of aluminum, sandblasted and anodized for durability, an elegant look and a pleasant-to-touch, slightly matte finish. The whole thing weighs just 1 kg, and the

thickness of the device is only 10 mm, making the tablet easy to pack and convenient to transport. It's ideal for working both at a desk and on the go.

Image full of color and depth

Using quantum dot technology, the Kamvas Pro 13 (2.5K) screen achieves an impressive 145% coverage of the sRGB gamut, which means vivid, deep colors with natural saturation. A high contrast ratio of 1,200:1 and 16.7 million displayed colors (8-bit) make every detail - from subtle shadows to intense colors - look realistic. Full lamination technology eliminates parallax effect, improving drawing precision and enhancing image clarity, and anti-glare glass significantly reduces glare, ensuring a comfortable working environment even in bright light.

Stylus included

Included with the tablet you will find the PW517 stylus, based on PenTech 3.0 technology, which provides even better reproduction of movements and pressure. The stylus requires no charging, offers 8192 levels of sensitivity, support for tilt up to ±60°, and extremely fast response - over 300 PPS. All this means natural, smooth drawing without lag. What's more, in addition to standard tips, felt tips are included to resemble working on paper. The PW517 is great for both precise lines and dynamic, expressive strokes.

Reliable connection

The Kamvas Pro 13 (2.5K) has a full-function USB-C port that supports image, data and power transfer simultaneously. You can connect it with a USB-C to USB-C or 3-in2 USB-C cable. Importantly, the Kamvas Pro 13 (2.5K) can also be switched to a graphics tablet mode without a display, allowing for a different working style. In addition, the device can be connected to selected Android devices for even greater flexibility of operation.

Better work organization with shortcuts

The tablet is equipped with 7 programmable buttons located along the side edge of the screen. Their slightly curved surface improves the comfort of use, and the ability to assign custom functions allows you to conveniently adapt them to your work style. You can setamong others. shortcuts to brush,

resize, zoom, undo and other frequently used tools. This allows you to work faster without taking your hands off the tablet and increases your overall productivity.

Wide compatibility, more possibilities

HUION Kamvas Pro 13 (2.5K) works seamlessly with Windows, macOS, Linux, as well as selected Android devices (with USB-C ports supporting USB 3.1 Gen 1 and DP 1.2). In addition, the tablet works with the most popular graphics programs, such as Adobe Photoshop, Illustrator, SAI, Krita, Clip Studio Paint and GIMP. So you can use your favorite software without limitations.

Included

- tablet
- stylus
- stylus holder
- standard stylus tip x5
- felt tip for stylus x5
- clip for stylus tip
- folding stand
- 3in2 cable
- USB extension cable
- USB-C to USB-C cable
- USB power cable
- quick start guide
- cleaning cloth
