

Huion Kamvas 16 GEN 3 GS1563 Graphics Tablet

Model: GS1563

Manufacturer: HUION

EAN: 6930444805647

Product Code: 353043

R11,044

Huion Kamvas 16 GEN 3 GS1563 Graphics Tablet

Designed for professional illustrators, animators, and concept artists, the Kamvas 16 (Gen 3) is a graphics tablet that meets the highest expectations. The 15.8-inch screen with 2.5K QHD resolution guarantees a sharp and detailed image, while PenTech 4.0 pen technology ensures excellent sensitivity, precision, and natural movement. The matte Canvas Glass surface mimics paper, providing a realistic drawing experience, while dual dials and customizable buttons let you work faster and more comfortably. It’s a versatile, modern tool that simply keeps up with your creativity.

A screen that shows every detail

The Kamvas 16 (Gen 3) offers a resolution of 2560 × 1440 px (QHD) on a 15.8-inch screen, resulting in a pixel density of 186 PPI—ideal for detailed work. The screen covers 99% of sRGB, 90% of Adobe

RGB, and 99% of Rec.709, so you can work in exactly the color space your project requires. 16.7 million colors (8-bit) and a 1000:1 contrast ratio make the image vivid, deep, and exceptionally realistic. Each device is factory-calibrated (ΔE<1.5), as confirmed by the included report—you can be sure you’re seeing exactly what you intended.

New Drawing Technology – PenTech 4.0

The PW600L stylus, based on PenTech 4.0 technology, is a true game-changer in the world of digital drawing. Thanks to a precise sensor, 5080 LPI resolution, a sampling rate of over 260 PPS, and as many as 16,384 pressure levels, every stroke is smooth, natural, and exactly as you intend. It responds to even the lightest touch (starting at 2g), and you can adjust the maximum pressure from 200g to 500g, which works great when working with shading and layers. The ±60° tilt allows you to achieve effects similar to those of a brush or pencil. Add to that three programmable buttons that speed up your workflow, and a non-slip silicone grip that’s dust-resistant and fits comfortably in your hand. The tapered tip and minimal stroke distance (just 0.35 mm) ensure maximum control and visibility—just like with a traditional tool.

A surface like real canvas

The Kamvas 16 (Gen 3) screen is covered with modern Canvas Glass—a matte, anti-glare, and fully laminated surface. Thanks to the Low Sparkle coating, the image is clear even on solid backgrounds, and the subtle texture resembles paper, making drawing more natural and enjoyable.

More control with dials and buttons

The tablet is equipped with 6 quiet buttons and 2 functional dials that you can freely assign to your favorite shortcuts—from switching tools to rotating the canvas. The dials protrude slightly from the casing, making them easy to operate while you work. The Kamvas 16 (Gen 3) works great for both right- and left-handed users.

Work the way you like—display mode and pen tablet mode

The Kamvas 16 (Gen 3) lets you switch between pen display mode (with on-screen preview) and pen tablet mode (without preview), which is especially useful during long work sessions. This is a

convenient option for those who want to give their eyes a rest or conserve the device’s battery life.

Stable connections and convenient operation

The tablet offers two ports—a full-featured USB-C port and a 3-in-1 connector. You can connect it to a computer, laptop, or compatible Android smartphone (supporting USB 3.1 + DP 1.2). A stable connection prevents accidental disconnections while you’re working, giving you greater flexibility.

Compatibility and support for popular software

The Kamvas 16 (Gen 3) works with Windows 10+, macOS 10.12+, Linux (Ubuntu 20.04 LTS), and Android (USB 3.1 + DP 1.2). It works with the most popular graphics applications—such as Photoshop, Illustrator, Clip Studio Paint, Krita, Blender, SAI, and many others. You can work freely in the environment that suits you best!

Included

- graphics tablet x 1
- 3-in-1 cable (1.8 m) x 1
- USB power cable x 1
- fully functional USB-C to USB-C cable x 1
- USB-A extension cable (1.2 m) x 1
- USB power adapter x 1
- PW600L digital pen x 1
- PH06 pen holder x 1
- PN06 stylus tip x 10 (included with the stylus holder)
- cleaning cloth x 1
- glove x 1
- user manual

Manufacturer	Huion
Model	GS1563

Color	Black
Dimensions	421.2 x 236.81 x 12.62 mm
Working area	350 x 197 mm (15.8")
Net weight	1.245 kg
Touch	-
Video Interface	3-in-1 USB-C port, fully functional USB-C port
Input Voltage	AC 100–240 V, 50/60 Hz
Output Voltage	5 V, 3 A
Power Consumption	≤7W
Operating temperature and humidity	0–40°C, 20–80%
Storage temperature and humidity	–20°C–60°C, 10–90%
Operating System Compatibility	Windows 7 or later, macOS 10.12 or later, Android (USB 3.1 DP 1.2 or later), Linux (Ubuntu 20.04 LTS)

Display

Resolution	2560 x 1440 (16:9) QHD
LCD Type	IPS
AG Glass	2nd generation, anti-glare etched glass
Full Lamination	YES
Contrast ratio	1000:1
Brightness	220 cd/m²
Response time	14 ms
Viewing angle	89°/89° (H)/89°/89° (V) (typ.) (CR > 10)
Color gamut	120% sRGB
Display colors	16.7 million (8-bit)
