

Huion Kamvas Pro 16 GT1602 graphics tablet (2.5K)

Model: GT1602

Manufacturer: HUION

EAN: 6930444802486

Product Code: 353045

R11,458

Huion Kamvas Pro 16 (2.5K) graphics tablet

Sleek, portable and ready to work wherever your inspiration strikes - Huion Kamvas Pro 16 (2.5K) is a graphics tablet that combines precision, convenience and modern design. With a QHD 2.5K resolution screen, quantum dot technology and excellent color reproduction, this tool is perfect for professional creatives - graphic designers, illustrators, designers and anyone who wants to control the smallest detail of their work. And this is just the beginning of its capabilities.

Delightfully clear images

The Kamvas Pro 16 (2.5K) offers a resolution of 2560 x 1440 px on a 15.8-inch screen, resulting in a whopping 186 PPI - perfect sharpness for detailed work. The image is sharp, clean and full of detail, making drawing, retouching or digital painting even more accurate and intuitive.

Colors that are truly alive

The quantum dot technology used not only provides a wider color palette - as much as 145% sRGB - but also reduces harmful blue light, protecting your eyesight during long working hours. On top of that, a color depth of 16.7 million (8-bit) and a contrast ratio of 1200:1 make every hue, transition and shadow look natural and crisp - exactly as you plan.

Impressive precision

Thanks to full screen lamination and anti-reflective glass with etching finish, you get a paper-like drawing experience. The lack of air space between the glass and LCD panel eliminates parallax - so the cursor follows the pen tip perfectly. The 178° viewing angle guarantees a consistent image from any angle - with no color or brightness distortion.

A stylus that follows your every move

Included is the PW517 digital pen, based on PenTech 3.0 technology. It works without batteries, is light, stable and accurate. It supports up to 8192 levels of pressure, ±60° tilt recognition, and lets you choose between a classic tip and a felt tip, giving you an even more natural feel when drawing. The 5080 LPI resolution and >300 PPS frequency ensure perfect reproduction of even the fastest movements.

Lightweight, slim and always ready for action

With a weight of just 1.28 kg and a thickness of 10-11.5 mm, the Kamvas Pro 16 (2.5K) is ideal for mobile work. The aluminum alloy chassis improves durability and heat dissipation, and the compact size makes the tablet easy to fit in your bag - whether you're working in the studio, on the road or outdoors.

Customize and work comfortably

You can quickly switch the tablet to pen tablet mode, which not only saves power, but also allows you to change the way you work if you want to relieve strain on your eyes or wrist. And if you prefer to work with a tilt - use the ST200 folding stand, which offers six different angles from 14.5° to 45°.

Use your own shortcuts

On the chassis, you'll find eight programmable buttons that you can assign to the functions you use most often - such as zoom, undo, change tool or call up a quick access menu. With Huion's new controller, you can also set them for multimedia or pressure sensitivity lock.

Desktop order and easy connections

You can connect the Kamvas Pro 16 (2.5K) to your computer in two ways - with either a 3-in-2 cable (with HDMI) or a full-function USB-C to USB-C cable that supports both image transfer and power. It's a great solution for those who value minimalism on their desk and quick workstation preparation.

Full compatibility with your work environment

The tablet is compatible with Windows 7 and later, macOS 10.12+, Linux and Android devices (USB 3.1 DP1.2). It supports the most popular graphics programs, such as Photoshop, Illustrator, SAI, Krita, Clip Studio Paint, CorelDRAW and many others - so you can work confidently in what you know best.

Included

- graphics tablet
- battery-free digital stylus x 1
- stylus holder x 1
- standard cartridge x 5
- felt nib x 5
- pen nib clip x 1
- folding stand x 1
- 3in2 cable x 1
- USB extension cable x 1
- fully functional USB-C to USB-C cable x 1
- USB power cable x 1
- USB power adapter x 1
- quick start guide x 1
- cleaning cloth x 1
