

Huion Kamvas Studio 24 KS2401 graphics tablet

Model: KS2401

Manufacturer: HUION

EAN: 6930444802684

Product Code: 353047

R42,795

Huion Kamvas Studio 24 graphics tablet

If you are looking for hardware that combines a huge screen, high performance and precise tools for graphic work - Huion Kamvas Studio 24 is for you. This is not just a graphics tablet. It's a standalone workstation with a 24-inch QHD screen, a powerful Intel® Core™ i7 processor, NVIDIA GTX 1650 graphics card and 32 GB RAM. It's a pen computer designed with professional creatives in mind. It combines power, accuracy and convenience in one device that is ready to go right out of the box.

Huge workspace and high resolution

Kamvas Studio 24 offers a 24-inch IPS screen with 2560 x 1440 px (QHD) resolution, which means 2.5 times more pixels than standard Full HD. As a result, the image is sharp, full of detail and ready for demanding projects. The 16:9 aspect ratio and full lamination of the display guarantee even

better visibility, while the anti-reflective glass layer improves comfort regardless of the lighting.

Colors that make a difference

The device covers up to 99% of the sRGB color space, ensuring realistic color reproduction. The 16.7 million (8-bit) color depth makes tonal transitions smooth and natural, which is of great importance to graphic designers, illustrators or video editors. Whether you're creating illustrations, animations or advertising projects, you're assured that what you see is true to life.

Stunning smoothness of operation

Kamvas Studio 24 runs on a 12-core Intel® Core™ i7-12700F processor with a maximum clock speed of up to 4.9 GHz and an NVIDIA GTX 1650 graphics card. Its operating system is Windows 11, which guarantees a modern and stable working environment. This allows you to freely use advanced graphics software, edit video, create animations and work on large files without cropping or lagging.

Lots of memory, zero stress

On board you'll find 32GB of DDR4 RAM and a super-fast 1TB SSD. Thanks to NVMe technology, file read and write times are lightning fast. You no longer have to worry about slow system performance, lack of space for projects or long file loading times.

Styluses to match your style

You'll find two styluses included: PW550 with classic thickness and the slim PW550S, which resembles a pencil. Both support PenTech 3.0+ technology, have 8192 levels of pressure sensitivity, recognize tilt (±60°) and operate without batteries. The smaller tip provides better visibility for detailed work, and the silicone grip ensures comfort even during long sessions.

Touch screen and fast gesture operation

Kamvas Studio 24 supports 10-point capacitive touch, which means you can use gestures to zoom, scroll or change applications, just like on a smartphone. Thanks to its integration with Windows 11 Professional, the touch experience runs smoothly and supports productivity. In addition, the Huion

controller offers a Quick Menu function with the ability to define shortcuts - all to make working even more intuitive.

Modern connectivity and expanded ports

The device supports Wi-Fi 6, which ensures a stable network connection and fast data transfer, even in a crowded environment. Bluetooth 5.2 allows you to easily connect to a keyboard, mouse or headphones without additional cables. Kamvas Studio 24 also has a full set of ports: HDMI, DVI, RJ45, USB 2.0, USB 3.0, audio and microphone connectors - everything you might need to work comfortably.

Comfortable working for long hours

The adjustable stand allows you to position the screen at the perfect angle, and the quiet, efficient cooling system prevents the device from overheating even during intensive work. But that's not all! The built-in 5 MP camera and 3W x2 speakers allow you to participate in video conferences or conduct remote classes without the need to connect additional equipment, and a special function button allows you to quickly put the device to sleep, access the on-screen menu (OSD) and adjust the brightness. Everything you need is in one place!

Included

- graphic tablet
- adjustable stand
- power adapter
- power cable
- digital stylus x 2 (PW550, PW550S)
- stylus holder
- cleaning cloth
- user manual
