Zyxel WBE630S 11530 Mbit/s White Power over Ethernet (PoE)

Model: WBE630S-EU0101F

Manufacturer: ZYXEL

EAN: 4718937638857

Product Code: 375403

R9,392

Powerful. Secure. Wireless.

Building Resilient Education Connectivity with Next-Gen WiFi 7

Building Resilient Education Connectivity with Next-Gen WiFi 7

Designed for educational settings, WBE630S features a Qualcomm quad-core CPU and durable hardware, delivering lightning-fast speeds of up to 12.3Gbps and significantly increased capacity to ensure students have a seamless online experience.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

It unleashes the full potential of WiFi 7connectivity and reliability with MLO support in Nebula to meet the demands of today’s educational applications. Digital learning, virtual classrooms, and VR/AR can also take advantage of its incredible speeds, ensuring a seamless learning experience devoid of any latency.

The Versatility of Smart Antenna Technology

WBE630S incorporates unique Smart Antenna technology, an upgrade from dual-optimized antennas, automatically adapting antenna patterns for peak performance, effectively minimizing interference and ensuring optimal WiFi connectivity and coverage across diverse scenarios and mounting options.

Ready to Boost Network Speeds Up to 2.5x

Paired with Zyxel WBE630S WiFi 7 AP, the XMG1915-10EP/18EP switch is the perfect choice for upgrading your SB/SMB network’s speed and performance, offering up to 2.5 times faster speeds than today’s Gigabit networks.

With this switch, it’s a breeze to boost your network speed using your existing wiring infrastructure without costly and disruptive cable upgrades.
