Go faster with RAM Boost

Temporarily turn storage into virtual RAM whenever you need extra speed for smoother multitasking

Performance power

Accelerate your capabilities with the speed and efficiency of a powerful octa-core processor.

Frame your story

Your photos come out clear and bright as the 50 MP4 camera system adjusts to any vantage point, in any light – for perfect shots.

Detail enhancer

Take sharp, vibrant photos in any setting with the advanced 50 MP4 camera. Quad Pixel technology combines four pixels into one for better low-light sensitivity.

Look closer

See your subject up close and capture tiny details a standard lens would miss.

Smile for your selfie

Capture post-ready selfies in an instant with the 8 MP front camera.

Out of the dark

Night shots have automatically improved lighting, while captured photos match their displayed preview.
