The internet can contain inappropriate content, intrusive ads or other dangers and safety risks. ASUS Safe Browsing helps block undesirable content in one tap -- no extra apps required. Its lightweight DNS-based filtering* won’t affect router performance. It can even filter explicit content from search engine results to protect your kids online.
*By using Safe Browsing, you acknowledge and agree that the standard for blocked and filtered content is established by a third-party DNS provider.

Instant Guard Makes Public WiFi Secure

ASUS Instant Guard uses the power of your ZenWiFi AX Hybrid to add rock-solid VPN security to any public WiFi connections you use. It helps protect your private information such as credit card details, business data, emails and more.

Smart Looks for Smart Homes

ZenWiFi XD4 Plus works perfectly with smart-home services — including Alexa skills and IFTTT — and is available in charcoal or white to suit your décor.
