

ASUS TUF Gaming AX6000 (TUF-AX6000) wireless router Gigabit Ethernet Dual-band (2.4 GHz / 5 GHz) Black

Model: 90IG07X0-MO3C00

Manufacturer: ASUS

EAN: 4711081897002

Product Code: 376155

R3,603

TUF Gaming AX6000 is designed to give you stable and fast wireless and wired connections in device-dense environments. It's a router that benefits all your devices, from laptops, smartphones, and game consoles right down to all the IoT devices in your home.

4X Capacity. 2X Faster.*

WiFi 6 provides faster wireless speeds with OFDMA, BSS coloring and MU-MIMO technologies, and it also boosts network efficiency, so all your devices get their fair share of WiFi bandwidth. It's perfect for busy networks with lots of different WiFi devices, such as laptops, smartphones and smart home

devices.

*The data compares speed of 4X4 WiFi 6 solution on 5GHz band 160MHz channel to speed of 4X4 WiFi 5 solution on 5GHz band 80MHz channel

True Multi-Gigabit Wired Speeds

For true multi-gigabit performance, you need both WAN and LAN connections that support these speeds. TUF Gaming AX6000 features both WAN and LAN aggregation, so you can enjoy 5 Gbps wired speeds from your modem all the way to your PC and NAS.

WiFi that Goes Further

We've designed TUF Gaming AX6000 to give you the widest possible WiFi coverage. It uses OFDMA, a new technology in WiFi 6 that allows signals to travel further than they can in WiFi 5. With a 4x4 MIMO configuration and separate 2.4 GHz and 5GHz antennas to reduce interference, along with other enhancements like beamforming, which focuses the signal towards each device, TUF Gaming AX6000 reaches every corner.

Flexible and Scalable Wireless Mesh Networking

If you need more coverage or new functions, you can simply add another compatible router to your AiMesh network at any time!

Stable and Durable

TUF Gaming AX6000 is engineered to deliver maximum WiFi performance. The vent location and double heatsink design improve cooling for increased stability, and the fixed antennas and metal port protectors increase physical durability.

One Router. Three Modes. All Game Types.

TUF Gaming AX6000 provides gamers with different features for different game types.

Switch Modes for an Easy Life

Optimize whatever you're doing with different modes, and boost the task at hand!

Simultaneous Gaming and VPN

VPN Fusion lets you run both a VPN and an ordinary internet connection - simultaneously! So even if other network users need to use a VPN, you can still enjoy maximum gaming speeds.

Commercial-Grade Security for Your Home

Home network security is crucial when you have multiple connected devices, and even more so when there are devices without anti-virus capabilities such as IoT devices. TUF Gaming AX6000 includes lifetime free AiProtection Pro, including the latest WPA3 security protocol and advanced Parental Controls. Every device is protected with TUF Gaming AX6000, and you can keep an eye on everything that's happening on your network via the handy mobile app.

More Privacy, Anywhere

Instant Guard gives you one-click secure internet access via TUF Gaming AX6000 from anywhere in the world, thanks to its encrypted data-tunneling VPN technology. With TUF Gaming AX6000, you can take your home network with you wherever you go — and say goodbye to web-based third-party VPNs!
