It starts with a smile

Remie (PSS-E30) features beautiful sound, a keyboard made for small hands, and a songbook designed to help you guide your little one. Compact and lightweight, Remie is easy for the young maestro to take out and put away on their own. Watch them smile as they discover the universal language of music!

Discovery and fun, all-in-one.

Beautiful instrument sounds as well as vehicle noises, animal noises, and other exhilarating sound effects stimulate your child's curiosity. Quiz mode is a great way to naturally develop a musical foundation while having fun, and asks your child to guess the sound effects it plays. It also features a more advanced mode that asks children to guess the right notes. The Remie PSS-E30 comes with

preset songs, all enjoyable versions of famous tunes your child will hear throughout their life.

Inviting sound

Yamaha, the makers of world-class instruments have created a starter keyboard that simply inspires children to play it. The Remie (PSS-E30) familiarizes children with the sounds of the most common musical instruments, yet also comes with an array of sound effects that are sure to stimulate their curiosity.

Quiz mode grows with them

Many adults even get caught up in Quiz mode, which plays sound effects and asks you to guess which ones were played. Quiz mode also features a more advanced game that asks you to guess the intervals of the instrument sounds it plays. This is a very natural way to steadily develop an ear for music while having fun.

Preset Songs make it fun for your child to develop a musical foundation

The preset Songs are all fun to listen to, famous tunes that we hear throughout our lives. Children will commit the well-known melodies to memory as they enjoy them. Download the songbook so that you can take requests and join in the fun!

Let the show begin!

Imagine your young musician leading their own musical group, playing almost any style of music! A single finger is all it takes to start the playback of rhythm and accompaniment patterns from various musical genres. Play children's favorite tunes and bring smiles to their faces. When your child is old enough, it will be their turn to entertain you with their favorite tunes.

Mini-sized keys made to fit

Perfect for small hands, the Remie (PSS-E30) mini-keyboard features keys designed to be easy to play with a child’s strength, helping inspire them to want to play more.

Easy tidy up

With a compact body weighing just 1.2 kg, Remie (PSS-E30) takes up very little space, and is easy for children to take out and put away on their own.

Plug in headphones when they're in the zone and you need quiet!

The built-in speaker is on by default, but when you connect headphones (sold separately), your child can be immersed in musical magic without disturbing anyone else in the home.

You can also set the volume limit, allowing you to decide the maximum loudness for your child.

Take Remie anywhere!

The Remie (PSS-E30) runs on four AA batteries or a USB mobile battery making it easy to take on road trips, to visit grandparents, or anywhere that fun can happen.

The included USB power cable lets you plug into a computer, or to an AC outlet when batteries aren't available.
