With an integrated 4G LTE modem and a built-in SIM card slot, all you need to do insert a SIM card and turn on the Archer MR200. Enjoying fast, stable Wi-Fi on a 4G LTE network has never been easier.

Internet Access for up to 64 Devices Simultaneously

The Archer MR200 can easily share a 3G/4G connection with up to 64 wireless devices like tablets, laptops and mobile phones at the same time. It can also provide internet access for desktop computers via the LAN ports.

Wi-Fi Where You Need It

The Archer MR200 offers unmatched convenience and versatility. The ability to quickly establish powerful wireless networks can be tremendously important. The Archer MR200 is the perfect solution whether you're at home or working in a remote location. Just plug it in to boost on-site productivity and stay connected in a diverse range of environments. From the exhibition center to the RV, the Archer MR200 has you covered.

Support TP-Link OneMesh™

Co-work with TP-Link OneMesh products, to provide a more flexible and cost-effective Mesh network with a single Wi-Fi name for seamless whole-home coverage.

Personalize Your Home Network

Archer MR200 provides a wealth of advanced tools for personalized management.

Available WAN Connection

The WAN/LAN port enables Archer MR200 to work as a traditional wireless router which is compatible with cable, fiber, and DSL modems. And when it's set as a wireless router, its 3G/4G connection works as a backup to provide a sustained and reliable internet connection for you.
