Start light with the LG gram Book. Powered by a robust processor and adaptable speed, it’s with you every step of the way.

Combine style and substance

The gram book has a sturdy yet luxurious design that stands out in any space. The sleek, rounded-edge design creates an iconic silhouette, while metallic Titan Silver adds strength to style.

Retro red power button

With a retro-inspired red point power button, enjoy simple sensory controls. Log in easily with just one touch and boot up the system instantly.

Privacy in a snap

You can open and close the webcam shutter whenever you want to maintain security.
Thanks to the premium and immersive Neptune blue color, you can enjoy style and functionality simultaneously in your days.

Upgradeable storage space

Equipped with two M.2 slots for upgradeable SSD cards, the gram book adapts to your evolving needs with storage that scales up effortlessly.

AI-powered Intel® Core™ Processor

With an AI-powered Intel® Core™ Processor, the LG gram unlocks the power of AI, allowing real-time AI processing to meet your various needs.

Discover the power of AI

Discover the power of AI with Copilot in Windows
With Copilot in Windows, you can get real answers, inspiration, and solutions for your questions or projects, and generate images from your ideas.
Click the Copilot key on your keyboard to access intelligent tools on your gram.

Activate Copilot instantly

You can start Copilot integration from the taskbar or by pressing the Windows + C keys simultaneously. You can also use a keyboard hotkey to quickly access intelligent tools on your gram.

Ready to command with Bing Chat

Simply request multiple things, from song recommendations for your mood to organizing complex pages and setting preferences, with Copilot through Bing Chat.

Simplify complex content with a click

Copilot can summarize long emails and complicated content, efficiently processing work information and saving you valuable time.

Handles image editing and more

From simple requests like adjusting image size and brightness, to more complex tasks like background removal and upscaling, Copilot can do it all.

Powerful, yet upgradeable speed

The LG gram Book, equipped with DDR4x Dual memory and Dual NVMe SSDs, delivers fast boot times, rapid data transfers, and smooth multitasking. Experience exceptional performance for various tasks and the flexibility to upgrade to your desired speed with upgradeable options.

Get all connected

LG gram easily connects as many as 10 devices all at once, even iOS and Android. Share, collaborate, and create by turning your workspace into a concert of technology.

Data transfer

Easy data transfer between gram and mobile (Android & iOS).

Display expansion & duplication

Use your tablet or smartphone as a second screen.

AI classification

AI automatically handles image classification and tagging.

Screen mirroring

Cast your tablet or smartphone screen to the gram.

Keyboard & mouse share

Control your tablet or smartphone with the keyboard and mouse of your gram.

Sharp visuals. Clear ideas.
Enjoy clear visuals and seamless multi-tasking solutions, with 300nits brightness and a 1920x1080 FHD wide screen.

View in comfort

See each detail with crystal clarity through the anti-glare panel. It significantly reduces glare and reflection, and information stays visible and crisp, enhancing productivity.

Immersive audio experience

Immerse yourself in a 360-degree soundscape, with innovative Dolby Atmos technology. From music to movies, sounds come to life with the LG gram book.

Packed with power, pure practicality

Eliminate worries about battery shortages. The LG gram book is equipped with a 51Wh long-life battery, so you can carry it wherever needed.
