## FRITZ!Box 7690 – performance for DSL connections

Ultra-fast browsing, streaming and gaming – with the FRITZ!Box 7690, anything is possible. Wi-Fi 7 ensures top Wi-Fi speeds. Supervectoring for DSL up to 300 MBit/s and a 2.5 Gigabit WAN for use with the fiber optic modem leave nothing to be desired. A wide range of features for your home network and Smart Home, plus a complete telephone system with a DECT base station, round out the highlights.

## Wi-Fi 7 – the new generation of Wi-Fi with multi-gigabit!

Wi-Fi 7 brings top Wi-Fi speeds and offers even more powerful connections for multiple devices. It's therefore ideal for real-time applications such as gaming, virtual reality or video calls. Wi-Fi 7 is perfectly integrated into the FRITZ! ecosystem - all wireless devices work together optimally in the Mesh Wi-Fi, supplying you with top speeds.

The seventh generation of Wi-Fi has a few tricks up its sleeve to help perfect your Wi-Fi experience: Multi-Link Operation (MLO) means Wi-Fi 7 devices can transmit data on multiple frequency bands simultaneously. With punctured mode, your Wi-Fi can circumvent interference. Your FRITZ!Box automatically ensures you have the best connection.

The new Wi-Fi 7 standard adapts to your current environment and also works perfectly with all older wireless devices.

## Mesh Wi-Fi with FRITZ!

The FRITZ!Box 7690 Fiber supports Mesh Wi-Fi, meaning your videos, music and photos seamlessly reach every corner of your home, apartment or office. FRITZ!Repeater, FRITZ!Powerline or other FRITZ!Box models adopt the settings of the FRITZ!Box at the internet connection and all devices are always optimally connected – automatically and reliably.

With Mesh you enjoy high speeds while surfing, streaming or gaming. Instead of waiting for breathtaking 4k streaming and your favorite music, your media will wait for you.

## Automate your Smart Home with Zigbee

The FRITZ!Box 7690 is the ideal hub for your smart home, offering practical automation for energy, heating, lighting and more. Control your Smart Home devices with schedules, scenes or routines. The FRITZ!Box supports Smart Home products via DECT. It also integrates smart home devices from other manufacturers, such as LED lights, via Zigbee. The FRITZ!App Smart Home is the ideal remote control for your FRITZ! Smart Home, both at home and on the go.

The USB port is perfect for FRITZ!NAS and the FRITZ! media server: Connect an external hard drive to your FRITZ!Box and you have access to it throughout your home network.

## Making phone calls fun

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

The FRITZ!Box 7690 includes a complete telephone system. You can register up to six DECT phones to the built-in DECT base station; with FRITZ!Fon you'll never want to hang up the phone! In addition, you can set up up to five answering machines and manage call lists. Notifications about missed calls or incoming voice messages ensure you're always up to date. You can also sync your online contacts from Google, Apple and many more with your FRITZ!Box.

## FRITZ!Apps for added convenience

With the FRITZ!Apps you can also use your smartphone to access FRITZ!Box convenience features, make phone calls in the home network and keep an eye on your Smart Home.

## FRITZ!Box, for safety's sake

The security concept covers all areas of the FRITZ!Box: secure browsing thanks to the built-in firewall, Wi-Fi protected with an individual network key upon delivery, and guest access that lets friends and family access the internet but not your home network. These and many other features make your communication secure.

## FRITZ!OS: The genius behind FRITZ!

FRITZ!OS is the smart operating system for all FRITZ! products. It combines ease-of-use with versatile features and comprehensive security. A clear user interface and wizards accompany you every step of the way. Regular updates keep your FRITZ!Box up to date – you can also turn on automatic updates.
