Roll out stunning RGB lighting and precision tracking.

The HyperX Pulsefire Mat RGB Mouse Pad is built for the gamer that loves extra flair, but still needs their mouse pad to provide a smooth, precise mouse surface. Give your setup an extra pop of eye-catching style with 2 zones of customizable lighting, and a convenient touch selector to switch between lighting profiles. With a durable, densely-woven precision surface and an anti-slip rubber underside, Pulsefire Mat ensures that your mouse pad will enhance both your gaming and glamour. The flat surface provides a smooth, consistent mouse glide and it rolls up for easy portability. Customize lighting and smooth lighting effects with HyperX NGENUITY software, and save your profiles directly to the onboard memory.
