The gaming keyboard, elevated.

As the world's most customizable toolless mechanical gaming keyboard on the market[5], the HyperX Alloy Rise takes personalization to the next level. Not only can you hot swap in key switches, but also magnetic top plates, badges, and more. All that customization is built onto the Alloy Rise’s solid frame and ultra-responsive 8k polling rate. Out of the box, this keyboard features pre-lubed HyperX Linear Switches rated for up to 80 million keypresses1 as well as pre-installed HyperX PBT Keycaps. You’ll also get an upgraded RGB experience courtesy of the ambient light sensor that auto-adjusts the brightness, 10 keyboard profiles saved directly to the keyboard, and powerful customization via HyperX NGENUITY Software. Get one step closer to your endgame with the HyperX Alloy Rise.
