Highest 3,000:1 contrast ratio (ASCR 100,000,000:1) automatically enhances the display's contrast by adjusting the luminance of the backlight to achieve the darkest black and brightest white – delivering lifelike images.

ASUS-exclusive SplendidPlus Technologies

We've raised the bar by incorporating some of our proprietary technologies into the ASUS VP247 series to give you a truly vivid visual experience. The VP247 series features the new SplendidPlus™ Video Intelligence Technology that optimizes videos and images by enhancing color brightness, contrast, and sharpness. SplendidPlus™ features two new modes – Reading and Darkroom – in addition to the Scenery, Standard, Theater, sRGB, and Night View modes. Low-blue Light and Flicker-free technologies also reduce the strain on your eyes after long periods of use.

Ultra-low Blue Light Monitor

The TÜV Rheinland-certified ASUS Blue Light Filter protects you from harmful blue light, and you can easily access its four different filter settings via a hotkey. VP247 Series has undergone stringent performance tests and has been certified by TÜV Rheinland laboratories, a global provider of technical, safety, and certification services, to be flicker-free and to emit low blue light levels

Flicker-free Technology

It's time to say goodbye to those tired, strained eyes. VP247 Series features TÜV Rheinland-certified ASUS Flicker-Free technology to reduce flicker for a comfortable viewing experience. This technology helps minimize instances of eyestrain and other damaging ailments, especially when you spend long, countless hours in front of a display watching favorite videos.
