and high-precision 12,000 dpi optical sensor offer pinpoint control for that added edge in battle. The M4 Wireless is shaped like an ambidextrous form factor mouse to provide a balanced feel, weighs just 62 grams*. Its PBT cover is protected by ASUS Antibacterial Guard treatment. For added convenience, M4 Wireless works with both AAA or AA batteries.

*Weight excluding battery and dongle

DUAL WIRELESS CONNECTIVITY

The TUF Gaming M4 Wireless features dual modes via 2.4 GHz wireless and Bluetooth connections for superb stability.

ANTIBACTERIAL PBT TOP COVER AND SIDE BUTTONS

The TUF Gaming M4 Wireless features a PBT top cover and side buttons with an anti-bacterial ionic silver treatment. The PBT material resists wear or shine, and ensures a consistent feel and secure grip. The alcohol-safe surface also allows you to clean the mouse surfaces without concern.

ASUS ANTIBACTERIAL GUARD

To keep your TUF Gaming M4 Wireless hygienic, its surfaces and side buttons are protected by the new ASUS Antibacterial Guard ionic silver treatment. Positively-charged silver (Ag+) ions bind with the cell walls of negatively-charged microbes and bacteria, disrupting their internal functions and prevent further growth. Antibacterial Guard has been scientifically shown to inhibit the growth of bacteria by more than 99%* over a 24-hour period. Antibacterial Guard helps keep the surfaces of your mouse clean and sanitary, potentially reducing the spread of harmful bacteria.

*Subjected to ISO 22196 Antimicrobial Activity and Efficacy tests conducted by Taiwan Testing Center SGS

WORKS WITH AAA AND AA BATTERIES

A bundled AAA-to-AA battery converter lets you power the TUF Gaming M4 Wireless with AA or AAA batteries*. Pairing the smaller AAA battery with the converter results in a 10% weight reduction, which can lead to faster movements.

*AA and AAA batteries included.

100% PTFE MOUSE FEET

The 100% polytetrafluoroethylene (PTFE) mouse feet on TUF Gaming M4 Wireless ensures that it glides smoothly across any mouse pad surface.

SIX TACTILE & PROGRAMMABLE BUTTONS

The TUF Gaming M4 Wireless features six tactile and programmable buttons, allowing you to tailor controls to suit your style of play. The left and right buttons are separated from the top cover, resulting in lower actuation force and travel distance for faster and more tactile clicks.
A DPI switch and indicator lets you adjust sensitivity on the fly, while two strategically placed left-side buttons and a clickable scroll wheel offer additional control options.

ARMOURY CRATE

Armoury Crate software offers extensive controls and an intuitive UI that lets you tune the TUF Gaming M4 Wireless to suit the way you play. Create profiles, map buttons, adjust performance settings, and more.
