smooth glide. In addition, ASUS Antibacterial Guard protection inhibits bacterial growth to keep surfaces sanitary.

ULTRALIGHT AIR

SHELL DESIGN

The ASUS R&D team created an ultralight Air Shell design comprising of a hollow pyramidal frame to the keep the weight of the TUF Gaming M4 Air down to a mere 47 grams while maintaining durability and structural integrity.

100% PTFE MOUSE FEET & TUF GAMING PARACORD

Smartly engineered for weight reduction and freedom of movement, TUF Gaming M4 Air features a TUF Gaming Paracord made of soft, lightweight and flexible fiber to minimize snags, and its 100% PTFE mouse feet ensure an effortless glide.

PROTECTIVE IPX6 WATER RESISTANCE

The printed circuit board assembly (PCBA) of the TUF Gaming M4 Air is treated with an IPX6 water-repellent protective coating to guard against accidental spills and sweaty palms.

Note: In the event of accidental spills or moisture in the mouse, ROG recommends to switch it off and leave it for 24 hours to dry.

ULTIMATE ACCURACY

Every strike is critical. At the heart of the TUF Gaming M4 Air is a specially tuned optical sensor for unerring accuracy and precision to help you take down the competition.

ASUS ANTIBACTERIAL GUARD

To keep your TUF Gaming M4 Air hygienic, its surfaces and side buttons are protected by the new ASUS Antibacterial Guard ionic silver treatment. Positively-charged silver (Ag+) ions bind with the cell walls of negatively-charged microbes and bacteria, disrupting their internal functions and preventing further growth. Antibacterial Guard has been scientifically shown to inhibit the growth of bacteria by more than 99%* over a 24-hour period, keeping the surfaces of your mouse clean and

sanitary, potentially reducing the spread of harmful bacteria.

*Subjected to ISO 22196 Antimicrobial Activity and Efficacy tests conducted by the Taiwan Testing Center SGS

SIX TACTILE & PROGRAMMABLE BUTTONS

The TUF Gaming M4 Air features six tactile and programmable buttons, allowing you to tailor controls to suit your style of play. The left and right buttons are separated from the top cover, resulting in lower actuation force and travel distance for faster and more tactile clicks.
A DPI switch lets you adjust sensitivity on the fly, while two strategically placed left-side buttons and a clickable scroll wheel offer additional control options.

ARMOURY CRATE

Armoury Crate software offers extensive controls and an intuitive UI that lets you tune the TUF Gaming M4 Air to suit the way you play. Create profiles, map buttons, adjust performance settings, and more.
