profile setting functions with the Aim Lab Settings Optimizer.

Unleash Your

Pro Potential

ROG and Aim Lab have joined forces to raise the bar for esports gaming with the ROG Harpe Ace Aim Lab Edition wireless gaming mouse. Designed for esports athletes and aspiring gaming professionals, this ultralight 54-gram mouse includes the Aim Lab Settings Optimizer feature that measures and analyzes gamer performance to create the best-possible settings combination, playing to your strengths.

Unleash the champion within—with the ROG Harpe Ace Aim Lab Edition.

ROG X AIM LAB

ROG and Aim Lab have come together to create the ultimate esports gaming mouse—the ROG Harpe Ace Aim Lab Edition.

Pro-Tested Form Factor

The ROG Harpe Ace is engineered through collaboration with the top esports professionals and world record aimers at Aim Lab. Extensive insight and understanding on the needs of esports players has led our designers and engineers to design 15 different versions of the ROG Harpe Ace, until the delicate balance of shape and weight distribution is achieved.

Aim Lab Settings Optimizer

Every player possesses strengths and traits that are unique. The Aim Lab Settings Optimizer helps determine what yours are — and then helps set the Harpe Ace to play to your strengths. The software guides you through a series of specially designed tasks and analyzes your FPS gaming habits, then suggests settings that are tailored to your play style.

54 G Ultralight Design

Loaded with a winning form factor and top-class specifications, it is astounding that the Harpe Ace weighs only 54 grams – all the while retaining a durable structure that encompasses components to

streamline every player’s journey to excellence.

ROG AimPoint Optical Sensor

The 36,000-dpi ROG AimPoint optical sensor features an industry-leading < 1% cpi deviation, allowing you to track and flick with absolute precision.

ROG Micro Switches

The ROG Micro Switch has a 70-million-click lifespan. To minimize switch force deviation between the left and right mouse buttons, switches with gram-force deviation within the +/-5 (g) range are sorted together to ensure a consistent click feel.

Onboard Customization

Preset Mouse Settings To-Go

The onboard customization feature allows you to calibrate and adjust DPI, polling rate, lift-off distance, or do a hardware reset on the fly wherever you go. This flexibility makes the Harpe Ace ideal when participating in esports tournaments—simply connect it to your device, and you’re ready to go.

ROG-Patterned Grip Tape

Bundled mouse grip tape gives you a more secure grip while also adding a bit of flair.

Smooth and Swift Glide

The ROG Paracord and 100% PTFE mouse feet allow for ultra-smooth and snag-free mouse movement.

Aura Lighting

Take style to the next level through an endless spectrum of colors or preset effects with Aura Sync RGB lighting.

Armoury Crate

Use the free ROG Armoury Crate software to adjust performance and surface calibration settings, program and map buttons, customize Aura Sync RGB lighting effects, and more.

Dare to Be Green

We at the Republic of Gamers are on a mission to create a sustainable future where all gamers can flourish on the planet we call home.

Every step counts, and as part of ROG’s commitment to creating a more sustainable future, use of plastics in the packaging of ROG Harpe Ace Aim Lab Edition has been reduced, accounting for no more than 1% by weight.

For those who dare, join us on our journey as we make the world a better place.

ROG Ace Esports Collection

Designed with professionals and crafted for every champion.
