click latency, ergonomic design, ROG Paracord, 100% PTFE mouse feet, six programmable buttons, and mouse grip tape.

UNERRING ACCURACY. EVOLVING CLASSIC

Take aim and experience unerring accuracy like never before with the ROG Gladius III Wireless AimPoint gaming mouse, featuring the exclusive AimPoint optical sensor that delivers sensitivity levels of up to 36,000 dpi. With an ergonomic design to reduce fatigue even after hours of use, plus longer battery life to boot, take point and go into games full of confidence with the Gladius III Wireless AimPoint as your sidearm.

THE EVER-EVOLVING CLASSIC

An all-time favorite of ROG fans, the Gladius series continues to push through boundaries while retaining the essential characteristic that makes the series so unique – an asymmetrical shape that provides lasting comfort for a variety of right-handed grip styles.

PERFECT PRECISION

Track every movement with unrivalled precision with the ROG AimPoint optical sensor. Featuring sensitivity levels ranging from 100 to 36,000 dpi with industry-leading <1% cpi deviation, the sensor registers movement at speeds of up to 650 inches per second (ips) at up to 50 g acceleration to ensure that your strikes are swift and effective.

TRI-MODE CONNECTIVITY

Connect the Gladius III Wireless AimPoint any way you want: go with the ultrafast wireless 2.4 GHz RF mode, pair up to three devices with Bluetooth® fast pairing technology, or fast-charge while dominating a game with the wired USB mode.

ROG SpeedNova wireless technology optimizes wireless data transfer to deliver industry-leading low-latency performance.

Even in noisy environments congested with RF signal interference from surrounding wireless devices, ROG SpeedNova ensures polling rate stays at peak performance by cutting through signal

jams with powerful connections and scanning for available frequencies with minimal interference.

Meticulously engineered to minimize power consumption up to 50% less than other wireless mice using the same battery.

WEIGHT REDUCTION

This latest iteration of the Gladius series weights just 79 grams – ensuring your movements remain sharp and controlled, even after hours of play.

ENERGY-EFFICIENT PERFORMANCE

Game on wirelessly for up to 119 hours in ultrafast 2.4 GHz RF.
Or go on for up to 143 hours in Bluetooth mode.

SMOOTH AND FAST MOVEMENTS

Equipped with the extremely flexible and lightweight ROG Paracord and round-edged 100% PTFE mouse feet to minimize snags, maximize movement, and provide an ultra-smooth glide.

ON-THE-FLY DPI

The DPI On-The-Scroll feature enables on-the-fly mouse sensitivity adjustments. Alternatively, you can click the button to cycle through up to four different levels of DPI levels.

AURA LIGHTING

Take style to the next level through an endless spectrum of colors or preset effects with Aura Sync RGB lighting.

ARMOURY CRATE

Armoury Crate’s intuitive UI lets you easily tune the ROG Gladius III Wireless AimPoint to suit your gameplay style — adjust performance and surface calibration settings, program and map buttons, customize lighting effects, and more. You can even track hardware stats during gameplay for data
