ULTRA-LOW RESISTANCE

The surface is primed for ultrafast glides, allowing for effortless mouse movements over long periods of gaming sessions.

TOTAL PRECISION

With ultra-low dynamic and static friction, the surface accurately converts every subtle hand movement into in-game action, so flicking and tracking is an absolute breeze.

SILENT & SMOOTH

An additional coating on the glass surface reduces sound so your movements across the mouse pad stays quiet.

TEMPERED FOR STRENGTH

IMPACT RESISTANT

Made out of 9H tempered glass, the ROG Moonstone Ace L displays exceptional durability and tensile strength. It’s completely shatter-proof, even when dropped from a height of 1 meter.

*The durability of the Moonstone Ace L has been tested in a controlled environment.
Please refrain from dropping the glass pad from any high areas, or hitting it with sharp objects, especially at the edges.

SCRATCH RESISTANT

The glass surface has a special coating that’s designed to withstand wear and tear, ensuring years of use.

EASY TO CLEAN

Dirt and smudges can be easily wiped-off of the glass surface with a wet cloth.

SECURE AND STYLISH
