CRAFTED FOR IMMERSION

The ROG Azoth X is a 75% custom gaming keyboard built for discerning gamers and keyboard enthusiasts who demand precision and versatility. It features hot-swappable ROG NX V2 Mechanical Switches and dye-sublimated Stellar-themed ROG keycaps for enhanced durability and aesthetics. A south-facing PCB ensures compatibility with a broad range of switches and keycaps, while five dampening players, a gasket mount, and an FR4 positioning plate work in unison to provide refined typing experiences. The Azoth X boasts an OLED display with intuitive controls, tri-mode connectivity including 2.4GHz ROG SpeedNova technology, a silicone wrist rest, three tilt angles, and Mac

support.

Three-Side Translucent & Dye-Sublimated Keycaps

Stylish and functional, the keycaps on Azoth X feature a three-sided semi-translucent design that amplifies RGB shine-through for a stunning visual display. The front and top of each keycap is dye-sublimated with the ROG Stellar theme, giving it a signature look while ensuring legends stay sharp and vibrant even after countless gaming sessions.
