Model: 90XB066N-BMU000

Manufacturer: ASUS

EAN: 4718017430661

Product Code: 408998

R1,151

MW202 silent wireless mouse is ideal for using in a quiet environment, such as in a meeting, library, night time and etc. All keys are silent that lets you get rid of clicking noise (only around 20dB) and no more worries about annoying others. More concentration, more efficiency.

Automatically save power after 2 seconds standby, reducing 80% power consumption. And will fall into deep sleep after 1 minute inactivity which help to prolong battery life. No need to re-establish connection once paired, just move it or press any left or right button to wake it up when it is in shutoff sleep state.

Exclusively available for right-hand users, comfortable and natural feelings of ergonomics. Plus, thoughtful thumb rest with soft rubber texture supports you all the time when you work with this handy mouse.
