environments. With an ergonomic, lightweight design for superb comfort and swivel-fold mechanic for quick and easy portability, Strix Go ensures you can game on, without fatigue.

**Exceptional Hi-Res Audio**

**Exclusive ASUS Essence driver and airtight-chamber design**

Exclusive airtight chambers and 40 mm ASUS Essence drivers deliver incredibly rich, pure sound with optimized deep bass for immersive audio experiences.

## AI Noise-Canceling Microphone

ROG Strix Go is engineered with industry-leading, AI-powered noise-canceling technology for crystal-clear in-game voice communication. The algorithm draws on a massive, deep-learning database to accurately identify and counteract environmental noises. The upshot is that everything from keyboard clatter to background human chatter is virtually eliminated – ensuring crystal-clear in-game voice communication with your teammates. This main boom mic is unidirectional, detachable, and certified by leading communication providers, including Discord and TeamSpeak.

## Lightweight Comfort on the Go

At just 262 g, the lightweight design of ROG Strix Go gives you unbeatable comfort, especially for long gaming sessions. The swivel-fold design is just perfect for on-the-go enjoyment.

## Instant control at your fingertips

A volume wheel and microphone toggle on the ear cup let you make instant audio adjustments during gameplay. With intuitive controls easily within reach, you can stay focused on your game instead of your gear.

## Game on every platform

ROG Strix Go comes with a USB-C connector, letting you game on PCs, smartphones, Play Station 4* and even Nintendo Switch – without having to change headsets.

*Using included USB-C to USB 2.0 adapter cable
