

ZOWIE ZA13-DW mouse Gaming Right-hand RF Wireless 3200 DPI

Model: 9H.N4RBE.A2E

Manufacturer: BENQ

EAN: 4718755094453

Product Code: 409944

R3,955

Speed. Precision.

Faster and More Accurate Flick Shots

Higher Hump

The ZA13-DW's higher hump provides full palm support, balancing muscle exertion on both sides.

Shorter Aiming Time

Sports science proven to outperform others, the ZA13-DW's high hump design coupled with left and right curves promotes more balanced muscle activation in the palm. This results in faster flick

shooting.

More Accurate Flick Shots

The ZA13-DW offers better palm support for fixed-point braking compared with other mice which is confirmed through sports science testing. The curves on the left and right side enhance palm muscle activation when braking, making fixed-point braking more defined resulting in the highest aiming accuracy.

Faster Mouse Lifting

Sharper Angle. Faster Lifting.

Reliability
Enhanced receiver reduces signal interference
The enhanced receiver offers improved stability of the wireless signal and minimizes frame drops and stuttering stemming from wireless interference during gaming.

Others

The reception footprint of other receivers has no directionality making it difficult to determine the exact direction for optimum signal reception thus resulting in weaker signal transmission.

ZA13-DW

The exclusive directional enhanced receiver increases the reception footprint toward the mouse which improves signal reception. A reduced range of reception at the back of the receiver can effectively minimize interference from signals originating in the rear.

Easy to use

The convenience of charging

The enhanced receiver doubles as a charging dock, preventing accidental cable disconnections during wired charging.
