Grip Mouse

Vertical mouse with a welcome price.

The ergonomic shape of the mouse guarantees a healthier way of working. The extra wide, clickable scroll-wheel, the grooved left and right mouse-keys, and the optical sensor promise a convenient handling and precise movements. Start working with an ergonomic mouse, avoid physical complaints, and be more productive.

Extra wide scroll-wheel. Grooved buttons.
The Grip Mouse has an extra wide, clickable scroll wheel with notches, so you don’t slip of easily with your hand. The grooved left and right mouse-keys make sure that your fingertips rest in a shallow groove on the buttons. This ensures a good handling for your mouse work and lead to more productivity.

The features.

The optical sensor of the Grip Mouse guarantees a precise movement of your mouse pointer. Connect the Grip Mouse with the USB cable or the USB receiver to your computer. The Grip Mouse is installed automatically and is immediately ready to use, thanks to its Plug & Play technology.

Nice design for any working environment.

The design of the Grip Mouse is silver-metallic with black and fits perfectly into any working environment. The Grip Mouse is appropriate for a successful mouse work in your fixed office or also in your home office.

Attractive price-performance ratio.

With the Grip Mouse we offer a vertical mouse for the entry level. Thanks to the vertical design, an ergonomic and healthier way of working is ensured for you.
