14-Slot Media Converter Chassis

The LevelOne CVH-2000 media converter chassis is able to host up to 14 media converters. The chassis supports LevelOne FVT-2001/2002/2201/2401 and GVT-2000/2001 Media Converts. All converters are individually secured into the chassis and can be hot-swapped for maximum connection reliability.

The dual power supplies ensure continuous network operation. The Chassis is a standard 19-inch rack-mountable size that easily fits into a server rack.

- Supports 14 slots for various type of Media Converters
- Converter module hot-swappable
