

D-Link Nuclias AX1800 Wi-Fi Cloud-Managed Access Point

Model: DBA-X1230P

Manufacturer: D-LINK

EAN: 790069456930

Product Code: 412742

R5,039

Dual-Band Wi-Fi That Boosts Business Performance

With the DBA-X1230P by your side, it’s all systems go. It is fully prepared to handle all day-to-day demands of SMBs. Equipped with Wi-Fi 6, there are massive performance improvements, as well as all the features of 11ac now available for the 2.4 GHz band too. Turbocharged speeds, plenty of bandwidth and simple central management make it the ultimate booster in productivity.

Beamforming Ensures Consistent Coverage, Even on The Move

Beamforming technology continuously optimizes the wireless signal, focusing it towards receiving devices and following them. This adaptive beamforming enhances spectral efficiency and link

quality. Finally, with 2 x 2 MU-MIMO with two spatial streams, it slices through congestion offering all users a better Wi-Fi experience. Ideal for busy offices or places with users often on the move.

No-Wait Wi-Fi Even at Peak Time with MU-MIMO

Equipped with the latest 802.11ax MU-MIMO technology and 1800 Mbps throughput, delivering exceptional connectivity to more users and devices just got a lot easier. Your network will not balk, even at the busiest of times.

Hails The End of Slow Business

The DBA-X1230P is empowered with next generation Wi-Fi 6. Enhanced MU-MIMO with even more uplink and downlink streams serves more devices simultaneously. OFDMA dramatically increases transmission efficiency and 1024-QAM packs even more data bringing unadulterated speed increases of a searing 25%.
Wi-Fi 6 leverages all these features and more to create Wi-Fi with unparalleled performance.

Form Without Sacrificing Function

It can be hard to look good while still being functional. Yet the DBA-Series strikes the balance just right.
The smooth case in crisp white makes for an elegant design that can effortlessly fit into any setting.

Your Guests Online in No Time with a Captive Portal

With your dual-band Wi-Fi up and running, it is time to get everyone connected. A captive portal is an immensely easy method for getting users online quickly. Simplify further with Social Login so guests can get online whichever way suits them best.
And not only does it also increase brand recognition, but businesses can collect valuable data to better understand users.

Hit the Ground Running with Zero Touch Provisioning

The DBA-X1230P Nuclias Cloud-Managed Switch Series is deployed as a pre-managed, zero-configuration access point. No need to send out your most experienced engineer for every installation. With Nuclias' Zero-Touch Deployment, you can power-up the access points on site, plug them in, and remotely set up and manage them through Nuclias Cloud.

Complete Control over your Network’s Access

Complete control comes as standard with the DBA-X1230P. Combined with the Nuclias Cloud management software, a variety of the latest in network security and management tools are at your fingertips. You can rest assured that the best of the best are hard at work keeping your network protected and hitch free.

Peak Performance and Discreet Deployment with Power over Ethernet (PoE)

The DBA-X1230P’s Power over Ethernet function allows for easy installation and a simple, clean setup. No need to run extra power lines, no added hassle when configuring your hardwiring and no more cable clutter. Perfect for advanced installations in areas where power outlets are not readily available.
